## NON-AID COMMITTEE SEEKS WITHDRAWAL OF ITALIAN FORCES

Great Britain and France Delay Action to Induce Rome to Recall Volunteers From Spain—All Mediterranean Powers May Be Asked to Take Part in Balearic Islands Discussion

LONDON, Oct. 12 (P).—British and French officials moved tonight to give the "hands-off Spain" committee a brief last chance to try to get foreign troops out of Spain. At the same time, it was understood Great Britain and France agreed to treat alleged Italian activity in the Balearic Islands, off the Spanish east coast, as a separate problem.

(French Foreign Office technicians were reported yesterday to have discussed the possibility of inviting Italy to join with Great Britain and France in occupying the islands to safeguard them for ultimate government by Spain.)

The possibility arose that Great Britain and France might try to get all Mediterranean powers together on the question. The Balearics are of importance due to their position on trade routes in the Mediterranean.

Both problems were threshed out by Foreign Secretary Eden and Charles Corbin, French Ambassador to Great Britain.

The French envoy gave Mr. Eden Continued on Page 11, Column 5

## ARE BATTERING FORTIFICATIONS

Asturian Lines Making Fierce Resistance to Insurgent Drive

HENDAYE, Franco-Spanish Frontier, Oct. 12 (P).—Spanish insurgent troops, battering against the mountain fortifications protecting Gijon, reported tonight Asturian lines were resisting fiercely their clean-up drive on the North coast.

General Franco trained his artillery on the Stella Valley, after occupying small villages east of Cangas de Onis, and quickened troop movements near Ardonas along the Ribadesella-Oviedo road.

The insurgents said they found only 1,000 inhabitants, mostly women and children, in Cangas de Onis, which normally has a population of 11,000. The town was described as virtually in ruins as a result of dynamite and fire.

CONTINUE TO FIGHT

Meanwhile, the insurgents continued an artillery bombardment of Madrid, which started yesterday. Several hundred persons were injured last night when the shelling was at its height. Government sources estimated 1,152 shells dropped in Madrid in one hour.

An "important manoeuvre" was under way, the insurgent high command announced, on the Leon Province front south of Gijon, but gave no details of the fighting in that sector.

On the southern front the Government reported its forces checked an insurgent advance and counter-attacked, regaining lost ground on the road from Villanueva del Duque to Belmes.

At Cerbere, Spanish Government sources disclosed, all important ministries would be moved shortly from Valencia, their present seat, to Barcelona.

## Will Release Belgium From Locarno Pact

BRUSSELS, Oct. 12 (CP-Havas).—Text of a German declaration of a non-aggression policy toward Belgium will be published here and in Berlin tomorrow noon, it was disclosed tonight.

Informed quarters said the declaration would be similar in form to that made by Great Britain and France last April 24, in which those two nations released Belgium from her obligations under the Locarno (Western European) pact.

In effect, the German statement will round out Belgium's policy as declared by King Leopold, October 14, 1936, of standing aside from disputes of the great powers.

## Governor Is Made Officer of Old Society

In a ceremony romantic and full of color, Lord Tweedsmuir, Governor-General of Canada, was installed as Grand Master of the Order of the Good Time of Nova Scotia at Annapolis Royal. This famous society was founded by Champlain in 1606 at what is now Annapolis Royal, and is therefore the oldest club on the continent. Membership now approaches the half-million mark, distributed all over the world.

Lord Tweedsmuir cut the cake of good cheer and served sweet cider to the crowd. Left to right: Hon. J. W. Comeau, minister without portfolio; Hon. A. S. MacMillan, Minister of Highways; Hon. Angus L. MacDonald, Premier of Nova Scotia; Lord Tweedsmuir, and Lieutenant-Governor Robert Irwin.

## Wages of City Employees Increased 5 Per Cent as Partial Cut Restoration

Move to Cost \$6,952 to End Of December and \$27,000 For Whole of 1938

## SEEK REDUCTION ON TELEPHONE CHARGES

Wages of City Hall employees, policemen, firemen and members of the public library staff were restored by 5 per cent; the B.C. Telephone Company will be asked to confer with the public works executive with a view to reduced telephone rates; an appeal will be made to Premier Mackenzie King for consideration of the city's claim for increased financial assistance, and Mayor Andrew McGavin and Alderman Archie Willis were asked to seek outside expert advice in B.C. Electric Railway Company, Ltd., franchise matters, at a busy session of the City Council last evening.

In adopting a report of Alderman John A. Worthington, W. Lloyd Morgan, S. H. Okell, Edward Williams and R. A. C. Dewar, the council unanimously agreed to restore 5 per cent to the wages of the City Hall staff, policemen, firemen and library staff, who received past pay cuts. Nine hall employees were granted individual increases. Outside employees in receipt of \$4 per week received a 5 per cent increase.

## London Meeting Urges Migration To Dominions

United Kingdom Government Asked to Invite Dominion Governments to Consider Preparations For Settlement and to Provide Necessary Credit Facilities for Approved Schemes

LONDON, Oct. 12 (P).—The Empire Migration Conference today adopted a resolution expressing the opinion that time had come for early resumption of migration to the Dominions. It urged the United Kingdom Government to invite representatives of the Dominion Governments to consider making early preparations for settlement and to indicate readiness to provide credit facilities for approved schemes.

## Six Seamen Lose Lives in Tanker Fire

BAYTOWN, Texas, Oct. 12 (P).—Six seamen burned to death and nine were injured today when sudden flames enveloped the engine room and galley of the tanker Paragona.

The men were trapped when a hose broke as the tanks were being flushed with kerosene, and galley flames set the kerosene ablaze. The injured included two British seamen, J. Young, third engineer, and N. A. Hewart, fourth engineer.

## Governor Says First Loyalty of Canadian Is Owed to Dominion

As Sovereign Nation Canada Cannot Take Attitude Docilely From Anybody Else—Wide Knowledge of International Affairs Now Essential

MONTREAL, Oct. 12 (P).—Canada as a sovereign nation cannot "take her attitude to the world docilely from Britain or from the United States or from anybody else," Lord Tweedsmuir said tonight in an address before the Canadian Institute of International Affairs.

"A Canadian's first loyalty is not to the British Commonwealth of Nations, but to Canada," the Governor-General declared "and those who deny this are doing to my mind, a great disservice to the Commonwealth." Nations of the Empire must think out their own special problems.

Lord Tweedsmuir spoke at a banquet marking the institute's tenth anniversary. The gathering

## BRITISH CARS BECOME TARGETS FOR JAPANESE WARPLANE GUNS

Four Britons, Including Embassy Official, Two Russians and Italian Attacked on Road From Nanking to Shanghai by Aircraft Squadrons—Union Jacks on All Cars

## Awaiting Right Weather for Much-Advertised Big Push

SHANGHAI, Oct. 13 (P).—Anglo-Japanese diplomatic discussion, hardly subsided since Japanese flyers machine-gunned Sir Hugh Knatchbull-Hugessen, British Ambassador to China, seemed destined today to be renewed.

The issue was over shooting at Minghong, fourteen miles south of Shanghai, yesterday, in which it was disclosed four Britons, an Italian and two Russians were subjected to machine gun fire from warplanes identified as Japanese. No one was injured.

## HEPBURN HAS NEW CABINET

Thirteen Ministers Sworn to Office—Eight Have Portfolios for First Time

TORONTO, Oct. 12 (P).—Premier Mitchell Hepburn surrounded himself tonight with thirteen ministers, giving Ontario its biggest Cabinet since the Liberal party came into power under Mr. Hepburn in 1934. Eight achieved Cabinet rank for the first time.

In the drawing-room of Government House, Lieutenant-Governor Herbert A. Bruce swore into office the new Cabinet, just six days after the Hepburn Government was returned to power in a general election.

## U.S. CONSUL IN SYRIA IS SLAIN

J. T. Marriner Shot by Armenian for Asserted Refusal To Issue Visa

BEIRUT, Syria, Oct. 12 (P).—James Theodore Marriner, United States Consul-General, died today under the revolver of an Armenian who professed personal hatred for a man he had never met.

The forty-five-year-old bachelor diplomat was shot as he stepped from his automobile at the consulate and fell dead on the steps. His chauffeur captured the attacker, whom police identified as Mejdardich Karayan.

They said the Armenian asserted motive for the attack was Marriner's refusal to issue him a visa for travel to the United States. "He conceived a violent hatred for Marriner," a police official said, "whom he accused of insults which were purely imaginary, because they never met. He admits having acted for personal vengeance and without any political motive."

Police reported the attacker shot six bullets at close range, striking Marriner in the head, abdomen and thigh. Marriner was known widely for his part in international conferences.

## LATE NEWS BULLETINS

**HITLER TO REPLY TO ROOSEVELT**  
BERLIN, Oct. 12 (P).—Chancellor Hitler will reply to President Roosevelt's Chicago speech tomorrow, informed circles said tonight, by a declaration of non-aggression toward Belgium. These sources stated Hitler wishes to demonstrate to the world the Reich is anti-Communist and by peaceful intentions. They said he intends to prove the international lawlessness to which the President referred is not found in Germany.

**TO SPEND \$5,000,000 IN YUKON**  
VANCOUVER, Oct. 12 (P).—Dr. August Wiegmann, consulting engineer for Consolidated Mines of South Africa, said before leaving for San Francisco today, his company was preparing to spend \$5,000,000 in the preliminary development of the Yukon as a large-scale producing area.

**CLAIMS TWENTY-FOUR PLANES BROUGHT DOWN**  
SALAMANCA, Oct. 12 (CP-Havas).—Insurgent military sources declared tonight their aircraft shot down twenty-four Spanish Government craft attempting a raid on this city. They described this as a record for number of Government craft destroyed in a single day of the Spanish civil war.

**FUGITIVES FLEE TRINIDAD IN BOAT**  
PORT OF SPAIN, Trinidad, Oct. 13 (P).—Six fugitives from France's penal colony at Cayenne, left Port of Spain today in an open boat in a bid for freedom. The escaped convicts, who have been regaining strength in Trinidad during the last three months after a daring break from Cayenne, left the protection of this British colony for an unannounced destination.

**WINDSORS TO TRAVEL IN TRAILER**  
BERLIN, Oct. 12 (P).—Germany's only house trailer, built by Chancellor Hitler for the use of foreign diplomats and other distinguished guests, stood ready tonight for its maiden trip with the Duke and Duchess of Windsor as its first passengers. The limousine-trailer, a glorified version of those used in modern travel is equipped with a bar, kitchen, telephone and other conveniences.

**INDIAN KILLED BY VANCOUVER STREET CAR**  
VANCOUVER, Oct. 12 (P).—Moody Hart, twenty-four-year-old Indian of the Sechelt Indian Reservation, was crushed to death under the wheels of a street car tonight, as he crossed a downtown street.

## GANGSTERS DIE IN GUN BATTLE

Two Widely-Hunted Bandits Killed by Police in State Of Maine

BANGOR, Me., Oct. 12 (P).—Al Brady's boast he would "make John Dillinger look like a punk" was abruptly silenced by Federal agents' bullets today.

The thirty-five-year-old Indiana bandit-robber-killer, one-time neighbor of Dillinger, was cut down with one of his mobsters, Clarence Shaffer, Jr., in an early morning ambush in a Bangor sporting goods store.

A third Brady gangster, James Dalhove, surrendered after a police bullet had furrowed the bridge of his nose.

The only casualty among the Federal men was Walter Walsh, crack shot of the G-men force, who was wounded in the shoulder by a gangster bullet.

## WITHERING BARRAGE

For nearly five minutes whistling lead thrilled through Bangor's busiest street as the gangsters, each with a price of \$500 on his head, returned the withering barrage that poured from the weapons of the seventeen Federal, State and local officers in the attacking party.

Brady and his men have been hunted since a year ago yesterday when they escaped from an Indiana jail where they were held in connection with the murder of a police officer. They were blamed for three killings.

## ELEVEN TO MEET NARCOTIC CHARGE

Alleged to Have Handled Million Dollars' Worth in Last Ten Years

MINNEAPOLIS, Oct. 12 (P).—Twin Cities jails tonight held eleven persons said by Joseph Bell, North-west narcotics supervisor, to have handled a million dollars' worth of illicit narcotics in Midwestern, Western and Canadian cities during the last ten years.

Included among those held for arraignment tomorrow was a man identified by Bell as William (Stuttering) Bill Hildebrandt, whose arrest Washington officials described as the most important capture in the Northwest in many years. He and seven others were taken in four rapid-fire raids in and near Minneapolis and St. Paul Monday night and early Tuesday. Two others were arrested five days ago in suburban Anoka and held separately.

# Says Alaska-Pacific Highway Being Urged For Purpose of War

Bruce A. McKelvie Addresses Conservatives on Proposed Project and Annexation of Yukon—Robert H. Hiscocks Chairman of Ward Four

"THERE can be no doubt the main purpose of the proposed construction of the Alaska-Pacific Highway is to give the United States a military line of communication with Alaska in the event of war," declared Bruce A. McKelvie in an address to members of Ward Four Conservative Association here last night.

Mr. McKelvie was dealing particularly with the possibilities of war between the United States and Japan and the scheme of the British Columbia Government to annex Yukon Territory as a part of a general plan in the advancement of the construction of the highway, which, he claimed, would give the United States access to Alaska "the battleground in the war between the two nations."

## DISCUSS PROJECT

The speaker mentioned Premier Pattullo was going to Washington "presumably to discuss the Alaska-Pacific project." He said: "We will probably be offered the money without interest to build the roadway, but we are going to allow the Government of this province to sell us out to a foreign country? That is a matter we have got to decide and do it quickly."

Mr. McKelvie prefaced his remarks concerning the highway with a general review of the situation in Europe and the history of the present undeclared war between China and Japan. He asked how Canada stood on the question of defence against invasion. Since 1922, he said, China had more right to the belief she was safe from attack than Canada has at the present time. China had the assurance of protection from nine of the leading powers of the world.

## UNITED STATES AND JAPAN

"United States and Japan will eventually come to war and that war will be fought in Alaska. The republic to the south will never again send her forces afield. The United States will be on the defensive and Alaska will become the battleground," the speaker stated.

He also maintained Japan now controlled three strategic points in British Columbia—"Cowichan Lake, where Japanese interests control 600,000,000 feet of standing timber, an ideal place for a plane base to bomb the interior of British Columbia; Alert Bay, where Japanese interests control forty-five square miles of timber; and the Queen Charlotte Islands, which dominate Prince Rupert from a military standpoint." At that point Japanese interests, he asserted, had control of large tracts of timberlands and ore lands.

## A NEW LIFELINE

Mr. McKelvie pointed to the possibility of these points being used for military purposes in case Japan went to war with the United States. He also claimed there were large numbers of fishing boats that, he said, could be converted to war vessels for mining channels and passages on the British Columbia coast.

"These Japanese fishermen have a more intimate knowledge of our waters than our own Admiralty," he said. "So you will see that the lifeline to Alaska is very slender indeed. United States," he continued, "wants a second lifeline and that must be through the province of British Columbia, and that is why we should be particularly careful about the annexation of the Yukon. Ottawa could not very well allow a road to proceed through Federal-owned property, but if it was owned by the Province, it would be an entirely different matter. There is a very great danger of absorption of

the Yukon making British Columbia the Belgium of the Pacific.

## YUKON OUTLET

"Can anyone suggest," the speaker said, "any other reason for the annexation of the Yukon? Of what use would it be without a highway outlet to the South? The Yukon forms a very definite part of the militarized highway project."

Mr. McKelvie said the highway to Alaska had been discussed as long ago as 1908 by Theodore Roosevelt. He claimed the recent visit to Victoria of President Roosevelt might have had something to do with the proposed undertaking.

Prior to Mr. McKelvie's address, the members elected officers for the coming year as follows: Chairman, Robert H. Hiscocks; vice-chairman, Adolph Lancaster; secretary, J. J. Bothwell; treasurer, Mrs. W. C. Moresby, and delegates to the central executive, Mrs. M. R. Jameson, Mrs. Moresby, M. Lancaster and H. D. Twigg. F. G. Mulliner presided during election of officers in the absence of the chairman, W. C. Moresby, K.C.

# PERCY ABELL PASSES AWAY

Funeral Rites Tomorrow for Well-Known Businessman And Rotarian

THE LATE PERCY C. ABELL

After a long illness, Percy C. Abell, well-known local businessman and member of the Victoria Rotary Club, passed away at his home, 301 Kingston Street, yesterday morning. He was fifty-five years of age.

Born in Hamilton, Ont., Mr. Abell came to Victoria in 1912 as manager of the Macey Office Equipment Company, later organizing the Macey-Abell Company, Limited. In 1929 he moved to Vancouver as organizer for the British Columbia Safety League, a position which he was forced to relinquish in 1935 owing to ill-health. Mr. Abell had been a member of this city since that time.

Active in local club life, Mr. Abell was a charter member of the local Rotary Club and served as president of that service group in 1916. He was also a member of the Pacific Club and the Royal Colwood Golf and Country Club until ill-health prevented his active participation in club activities.

He is survived by his widow, at home, and two brothers in Eastern Canada.

Funeral services will be held tomorrow at 2 o'clock in Sands Mortuary Chapel, Rev. Canon Chadwick will officiate and interment will be made in Royal Oak Burial Park.

assistant air attaché, was the only British Embassy official involved. Others were Capt. W. L. Shinn, of the China Navigation Company; M. Braham, formerly of the Chinese Railway administration, and C. Marshall, all British. Lieutenant Francesco Rebezz, of the Italian Navy; M. Shahoff, secretary of the Soviet military attaché, and an unnamed Russian woman.

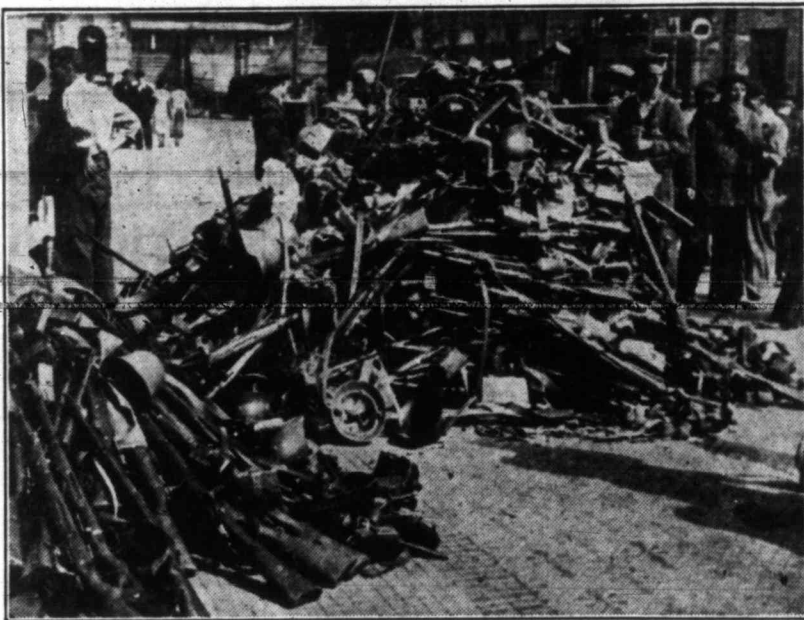

(Sir Hughes, attacked August 26, on the same road and under the same circumstances, now is convalescing from grave injuries.

(Japan, after sending an "interim" note that failed to satisfy British demands for redress for the shooting of the ambassador, expressed regret for the attack and gave assurances she would take "suitable steps, whenever it is established Japanese aviators killed or wounded intentionally, or through negligence, the nationals belonging to a third country.")

Although the two automobiles and one truck carried the British Union Jack, members of the party said the planes, which they identified as Japanese, continued machine-gunning them after they jumped from the automobiles and sought cover.

The Russian member of the party, named Shafoff, is a secretary of the Russian Embassy.

## AWAITING WEATHER

A Japanese spokesman at Shanghai declared that, weather permitting, the long overdue "big push" against Shanghai would get under way almost immediately. The army spokesman blamed muddy ground on the fronts north of Shanghai for the Japanese failure to advance.

At Nanking, Chinese declared Japanese air raiders paid dearly for attacks yesterday on China's capital and its environs, asserting five enemy aircraft were shot down—one heavy bomber, two light bombers and two pursuit ships.

## ONLY MINOR DAMAGE

NANKING, Oct. 13 (AP)—Chinese announced today the Japanese, despite yesterday's terrific air raid in which they lost five planes, inflicted only the most minor damage on the capital and its environs.

No military objectives were hit, the Chinese said, only one person was killed and only three injured, though the Japanese dropped twenty-seven of the heaviest bombs yet seen in air raids on Nanking.

They said residential areas were untouched.

The Chinese air force late last night suddenly extended its sphere of operations, according to advices from Tientsin, when five (Northrop) bombers raided Taku, the Japanese-occupied port east of Tientsin, dropping four bombs. The damage was not disclosed.

Chinese said five Japanese aircraft—a heavy bomber, two light bombers and two pursuit ships—were shot down in the Nanking area raids.

## CRUSHING RESISTANCE

PEIPING, Oct. 12 (AP)—Japanese reported tonight their offensive in North China had captured three important towns as it continued to crush Chinese resistance in Hopeh Province.

Japanese detachments were said to have stormed and breached the walls of Chauchow and Yuanahih, about 205 miles south of Peiping and ninety miles from the Yellow River, their main objective.

Another column swung west along the Cheng-Tai Railroad from its junction with the Peiping-Hankow Railroad at strategic Shih-Chia-chuang. The troops blasted their way into Chingling close to the gateway of Shansi Province.

## TO BE PEKING TODAY

Domei (Japanese) News Agency reported the Japan-dominated Peiping Peace Preservation Commission had voted to change the city's name back to Peking, effective tomorrow.

Observers regarded the development as a major step toward the complete severance of North China from the Nanking Government.

Persistent reports have said that the Japanese plan to establish an autonomous republic in North China with Peiping (Peking) as the capital. Peking means "northern capital."

## TRAINING

The bright young thing came into the room and smiled at her mother. "Mother," she said, "I must have some money for a new dress. Will you ask daddy for it?"

"Ask him yourself, dear," was mother's reply. "You're getting married in a month's time and you must have some practice."

# WAKE UP YOUR LIVER BILE—

The liver should pour out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. One ounce of your stomach. You get constipated. Bile goes into the body, and you feel sick, weak and the world looks pink. A new blood movement doesn't always get at the cause. You need something that works at the liver as well. It takes three good, old Carter's Little Liver Pills to get two pounds of bile flowing freely and make you feel "top and up." # G. G. McGEER TO SPEAK FRIDAY

Former Mayor of Vancouver Will Address Community Chest Dinner Here

R. H. B. Ker and F. M. McGregor, chairman of the Community Chest campaign, announce a dinner meeting in the grill room of the Empress Hotel at 6:30 p.m. on Friday next. The main address will be given by G. G. McGeer, K.C., M.P., who has full knowledge of past campaigns in Vancouver. In addition, Dr. H. M. Cassidy, provincial director of welfare services, will speak on

the needs of the work of organized charities, compared with provincial and municipal relief activities.

The meeting will be attended by all chairmen, majors and captains and by others who are interested in the Community Chest. Those who will attend are requested to give their names to the campaign office, Empire 8832.

## POLICE NOTE

The two policemen sat in their radio car and listened to the announcer's tense command:

"Calling Car 13. Calling Car 13. Go to 19 Louis Benito Boulevard. A man is fighting with his wife. Take away the shoe he's hitting her with."

"Gosh!" murmured the first cop.

"That's awful!"

"What?" asked his partner. "A man hitting his wife with a shoe."

"Naw," snorted the first bluecoat.

"The announcer ended a sentence with a preposition."

# CHIEFS WANT RADIO CARS

Matter to Now Go Before Police Commissions of Greater Victoria

The four police chiefs of Greater Victoria are unanimous in their decision that radio-equipped prowler cars are necessary to combat crime, and will submit data, together with their recommendations at the next meeting of the respective police commissions, it was learned yesterday, following a conference in the office of Chief Thomas Heatley.

Chief John Syme, Oak Bay; Chief Allan Rankin, Saanich, and Chief H. W. Pecknold, Esquimalt, met Chief Heatley, heard his viewpoint of the manner in which the installation of such equipment would expedite police work, and had submitted to them expert opinion on cost and operation.

## CHIEFS FAVORABLE

"The chiefs from the municipalities are greatly in favor of the installation of two-way radio equipment in prowler cars," declared Chief Heatley following the meeting. "All declare we should have it to combat the modern criminal. It is useless to endeavor to use old-time methods today, and places law enforcement officers under an immediate disadvantage."

It was explained that it is now possible to obtain first-class apparatus at a very low cost. "We expect to have complete data handed to us tomorrow," said the chief last evening, "and we shall then lay it before our respective commissions."

## EXCELLENT RESULTS

Chief Heatley, who has been an active proponent of radio equipment for police for some time, points out that the system has been adopted with excellent results in towns much smaller than Victoria, has added to the efficiency of the police forces where it is in use, and has given greater protection to residents, particularly in residential areas.

It has always been his contention that the per capita cost would be much less if the law enforcement

bodies of the three municipalities participated in the plan, and that with the more efficiency it would bring, there would be greater economy of time in answering calls.

With two-way control, prowler car could converse with prowler car while in action, as well as speaking to the station.

## Activities of Local Junior Chamber Are Outlined at Dinner

Seasonal Programme Started With Drive for Members—Colored Films of Jubilee Celebrations Shown—Committee Chairmen Are Named

OPENING their Autumn activities with a drive for members, the Junior Chamber of Commerce enjoyed dinner in Spencer's dining-room last evening, saw a number of colored films taken on the occasion of the recent Victoria Jubilee celebrations, and heard addresses by their president, Ernest H. Harris, and Past Presidents T. E. Watkins and Leslie F. Osborne.

To give guests some idea of what membership in the organization meant, an outline of the past activities of the Junior Chamber was submitted by Mr. Watkins. He described the manner in which the chamber had sent the pipe band of the Second Battalion, Canadian Scottish, to the Golden Gate Fiesta during the summer; declared the executive had kept in touch with Major W. E. Gladstone Murray, general manager of the C.B.C., regarding radio matters since his visit here over a year ago; mentioned the fact that the organization had supported the installation of traffic lights in the city, and drew attention to the first convention of Junior Chambers of Commerce of British Columbia which had been held in this city last spring. Mr. Watkins also suggested that the Junior Chamber might interest themselves in an air show, should plans now contemplated with reference to an airport here come to fruition.

President Harris followed, publicizing J. Barracough, B.C. Electric franchise; Leslie Osborne, finance; J. Hartnell, editor of The Junior Chamber Bulletin; J. McAllister, promotion; R. D. Harvey, aviation; G. C. Parrott, new membership; T. Sturges, radio; Leslie Osborne, monument committee; W. Bellew, programme.

Among the guests were Alderman T. W. Hawkins, who worked with the Junior Chamber during the jubilee celebrations, and Miss Isabel Alexander and Miss Flora Hughes, who assisted with secretarial work during the same period.

Nelson Goodwin was welcomed as a new member.

## VICTORIA LOSES INDIAN AGENCY

Federal Office Sixty Years in City Transferred to Vancouver at Week-End

Victoria lost another Federal payroll when the office of the British Columbia Indian Agent, Major D. M. MacKay, was officially transferred to the Mainland over the week-end. Notice of the removal was given some months ago, but now the change has actually taken place.

The office is administered by Major MacKay, with a staff of four employees, all under the Indian Government. The office has been relocated in the post office building, Vancouver, and Government Street offices formerly used for the purpose closed here.

The transfer severs a connection of the agency with Victoria which has persisted unbroken for sixty years, and was made over the objections of Victoria organizations.

### USEFUL

They were unpacking their goods for a week-end's camping. "George!" thundered the massive wife as she came upon an unopened bottle of whisky. "What's the meaning of this?" "That's all right, my dear. I brought it along to stick a candle in when it's empty."

## Unveil Lincoln Memorial

Unveiled on the 150th anniversary of the signing of the United States Constitution, this huge likeness of Abraham Lincoln, one of a group of four faces of Presidents carved from a mountain side on Mount Rushmore, near Rapid City, S.D., was dedicated before a crowd of 5,000 persons.

## BRITISH ACTORS STILL POPULAR

Myddleton Evans, Visiting Here From Hollywood Likes Movie City

British actors are still very much in demand in Hollywood, reports Myddleton Evans, a former Victoria resident, who is back here for a short visit before returning to Hollywood to start work in a Metro-Goldwyn-Mayer picture in which Clarke Gable is to play the lead. For the past four months Mr. Evans has been living in Hollywood, which he says he likes better than ever. In fact he prefers it to any place on the North American Continent that he knows, and he has traveled about the United States extensively. Not only has it grown enormously during the last few years, but it has attracted interesting people of every type. There are, he says, a great many English people, both for the legitimate stage and the screen, and they are enjoying continued popularity with the public of both theatres. The most popular member of the whole English colony is Aubrey Smith, who is an enormous favorite both as an actor and as a man.

While on this subject of the vogue of the English actor, Mr. Evans stated that English actresses were not very much in demand in Hollywood, most of them being too tall for the men they would have to play with. The American actress, as a type, was much better suited to the screen, being smaller.

### STANDARD IMPROVED

The standard of acting, whether for the stage or the screen, has greatly improved, he thinks. American actors are either consciously or unconsciously losing what was at one time considered the American accent.

Mr. Evans reports that there is a great deal of activity in all the Hollywood studios and that there will be a big output this season. He is enjoying the cool weather in Victoria, as the temperatures in Hollywood were still high, with 95 degrees the day he left.

## LORNE RITCHIE IS PRESIDENT

Appointed Head of Sunday School Basketball League At Annual Meeting

Lorne Ritchie was last night elected president of the Sunday School Basketball League, at its annual meeting in the Y.M.C.A. Vivian Shoemaker was appointed vice-president, while Fred Harding was chosen secretary-treasurer. Bob Dymond was named as the executive member.

Entries were received by seven teams in the intermediate "B" section, with the junior division composed of six squads.

Competing in the intermediate "B" class will be Bombers (Metropolitan Church), Klausner & Son (St. Alban's), Christ Church, St. Louis College, Y.M.C.A., Eight Aces and Chinese Students. The junior teams will be made up of the Y.M.C.A., St. Alban's, First United, Centennial, Lake Hill and Chinese Students.

The teams will swing into action on Saturday evening, on the Y.M.C.A. gym. The draw for the opening tussles will be announced by the executive committee tomorrow.

## MRS. PETER SHANDLEY IS TAKEN BY DEATH

There passed away early Monday morning at Royal Jubilee Hospital, after a long illness, Mrs. Martha Shandley, wife of Peter Shandley, of 702 Lamson Street, aged seventy-one years. She was born in Walsley, Cheshire, England, and had been residing in this city for the past forty-seven years.

She is survived by her husband; three sons, Frank M. Shandley and C. H. Shandley, both in Victoria, and Dr. F. F. Shandley, Seattle; four grandchildren, and three brothers in England.

The funeral will be held this afternoon, the cortege leaving Hayward's B.C. Funeral Chapel at 2:45 o'clock and proceeding to the Reformed Episcopal Church, where services will be conducted by Rev. A. deB. Owen at 3 o'clock. Interment will be made in the family plot at Ross Bay Cemetery.

## City Answer Given To Oak Bay Letter On Fire Protection

Council Replies to Ultimatum of Municipality That Separate Service Will Be Established And Relations Severed

A LETTER answering Oak Bay's ultimatum to the City Council that the municipality planned to sever fire protection connections with the city and establish its own department was compiled by Fire Warden W. Lloyd Morgan and ordered dispatched by the council last evening.

Alderman Morgan told the council fire wardens twice offered to reopen Duchess Street fire hall to serve Oak Bay for \$17,500 per annum, but the offer was turned down. Aldermen James Adam and S. H. Okell thought that the charge of \$1,500 per month for fire protection from Yates Street fire hall was too high. But Alderman Morgan quoted figures to show there was absolutely no profit to the city at that price. He assured the aldermen the door of negotiation was not closed to Oak Bay.

### TO OAK BAY

Following is the letter to Oak Bay: "I have your letter of the 7th instant in regard to the above subject, which was presented to the City Council at its meeting held on the 12th instant.

"Although you do not specifically decline the city's offer to furnish your municipality with fire protection for a three-year period as from the 1st January next for the sum of \$17,500 per annum with the Duchess Street fire hall reopened, the council construes your announcement of intention to establish your own fire department as a rejection of its proposal.

"As the City Council does not wish you to proceed under any misapprehension as to the city's position in this matter and is desirous of being entirely free to take such action as may appear advisable at the time in any negotiations in this connection that may take place in the future, it has decided to withdraw the said offer and has instructed me to notify you accordingly.

"Also the council desires to make its position clear on the question of secondary service, by drawing your attention to the fourth paragraph of its letter of the 13th April last in which it was stated that past experience from giving secondary fire protection service at a specified rate per call had not been satisfactory to the city, and the Council therefore was not interested in giving this class of service. Hence, any proposition for the giving by the city of secondary service on a reciprocal stand-by service basis would have to be very attractive before the council would be prepared to consider it.

### FIRE HYDRANTS

"Although the council would prefer your municipality to have its own fire hydrant system it would be willing to enter into a purely temporary arrangement whereby your municipality would be permitted to use city boundary hydrants for a limited period on terms to be agreed upon. The consideration to be given would of course have to be arranged in proper proportion in view of the fact that Victoria has seven hydrants in your municipality, and thirteen in the city at the boundary.

or a total of twenty, whilst you have but one hydrant and this is so located it is only remotely possible that it ever could be used to advantage by Victoria.

"It is now eight months since your acceptance of the city's offer to furnish your municipality with temporary fire protection service at \$1,000 per month for a period of six months beyond the termination of the fire protection agreement which expired on March 27 last, which offer was made in order to allow you reasonable time to prepare for the inauguration of your own department and represented a substantial reduction from the \$17,500 per year rate which had been proposed by the city for a three-year term. As the council feels it has shown every possible consideration in this direction and is convinced of the reasonableness of its offer of the 21st ultimo to continue giving service from September 27 last until the end of the current year at a charge of \$1,500 per month, and as it is advised by the Fire Wardens there was no understanding that the \$1,000 per month charge would be continued indefinitely, it cannot see its way clear to comply with your request for the reduction of the \$1,500 per month charge to \$1,000. For many reasons the council feels that for a long period of years the share of fire protection costs carried by your municipality has been out of all proportion to the financial obligation of the operation of the fire department has been to the citizens of Victoria, and has determined on the adjustment of this condition as equitably and as soon as possible. For example, although the charge to you has increased gradually from the very low figure of \$450 per month in 1920 to the 1937 rate of \$1,000 per month the average resident of Oak Bay has been paying this year \$2.03 for the same fire protection service that has cost the average Victorian more than twice as much notwithstanding his already heavy investment on capital account. Again, on a population basis Oak Bay's share of the cost of operating the fire department would be approximately \$21.000 per year, and on an area basis about \$57,000 whilst an average struck between the two would give a figure of approximately \$39,000.

"The council awaits your decision on its offer."

### Youth Employment

Alan Chambers, chairman of the Dominion Youth Employment Committee, will speak on the problem of youth employment at a public meeting to be held tomorrow at 8 p.m. in the auditorium of the Junior High School. This meeting is being held under the auspices of the Council of Social Agencies in an effort to make more widely known the various courses of training now available for young people who have left school and are not yet employed.

### Obituary

LeVINS—Funeral services for the late William LeVins will be held this afternoon at 2 o'clock. Interment will be made in Royal Oak Burial Park.

BALCOM—Funeral service for the late Raymond Balcom will be held this afternoon at 2:30 o'clock in the Thompson Funeral Home. The remains will be laid to rest in the family plot in Ross Bay Cemetery.

LeCOQ—Funeral services for John P. LeCoq will be held in Santa Mortuary Chapel this afternoon at 2 o'clock. Rev. T. G. Griffiths will conduct the service, after which interment will be made in Royal Oak Burial Park.

SINCLAIR—A profusion of beautiful floral tributes and a large congregation of sorrowing friends marked the funeral yesterday of the late Mrs. Sarah Allan Sinclair. Rev. W. G. Wilson, pastor of First United Church, conducted the impressive service, during which the hymn "Abide With Me" was sung by the congregation. A solo "Beautiful Isle of Somewhere" was sung by Mrs. F. Thompson. Interment was made in the family plot in Ross Bay Cemetery. The following were pallbearers: William Merriman, Alfred Jones, Bert. Rutherford, Neil Pollock, E. V. Findland and N. B. Pollock.

## Makes Milk More Popular with Children More Digestible-More Delicious

OVALTINE added to milk is the regular daily beverage of countless thousands of persons. They know that Ovaltine has special properties which transform milk into a delicious beverage, far more nourishing and digestible than milk alone.

Ovaltine with milk, hot or cold, is in itself a perfect food scientifically processed from a formula devised for building renewed strength and vitality in delicate patients and convalescents. The use of Ovaltine has spread to private homes as well as hospitals and nursing homes the world over.

### The Family Beverage for Health

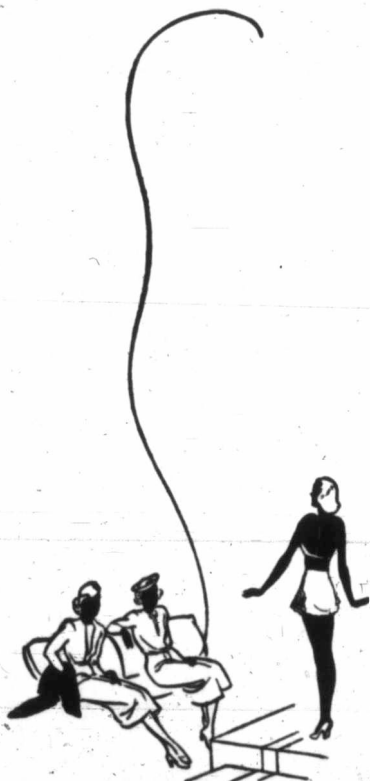

Every member of the family will benefit by making Ovaltine his or her daily beverage. It is particularly beneficial for growing children. Children who take Ovaltine regularly at home, and at school recess, morning and afternoon, are more alert, more up to their work at school, less liable to fatigue.

Moreover, the experience of school authorities and parents alike has shown that children who dislike milk take it eagerly when Ovaltine is added.

Try Ovaltine in your family. All druggists and grocers have it. Phone for a tin of Ovaltine now.

## AIMING AT DICTATORSHIP

Italy, Germany and Russia afford the example that a prerequisite to dictatorship is the muzzling of the Press. There is no longer any illusion in Alberta as to the form the Government of that Province desires to take. What is proposed in the "handling" of the newspapers is that information in line with Government aims and policies and favorable to Social Credit shall, perforce, be published. This, of course, is an invasion of the domain of free utterance and opinion. With Premier Aberhart it has two objects. One is to endeavor to force the tenets of Social Credit down the throats of the people by regimented publicity. The other is to be revenged upon an unfriendly Press.

Steadily, sedulously, and some say with malice aforethought, Premier Aberhart has engaged in an attempt to usurp powers that are possessed by the Dominion Government and that are inherent in the Constitution of the country. He has tampered with civil rights. He has sought to close the courts of the Province to those who would seek legal redress against his domineering tactics. One of his followers, Mr. R. Dixon, a merchant of Dixonville, says that it may be necessary to "use guns" in the fight with the Dominion Government. Seemingly seditious lies at the heart of the Social Credit movement, and at least, through irresponsible utterances, the seeds of insurrection against constituted authority have been sown in Alberta. The Province is so largely inhabited by elements of foreign birth that there is fallow ground for seditious movements. It is those elements who so vigorously support the Aberhartian doctrines.

No one who openly seeks to disregard the laws of Canada may be characterized as other than a rebel. Where a Government takes the lead in the disregard of authority, many of the people will do the same in their lesser sphere, and that condition is the prelude to anarchy. Already emotional Social Crediters are talking of sustaining their challenge to authority with guns. The Aberhartian creed, whatever its design, has stirred up suspicion, hatred and abuse among the inhabitants of the Province. It is in this respect the very antithesis of the gospel of economic security and far removed from that doctrine of brotherly love under the guise of which Mr. Aberhart spreads the gospel of discord from a religious platform.

The law relating to the muzzling of the Press uncovers, more than any previous legislation on behalf of Social Credit, the aim there is in view. Alberta is threatened by Hitlerism; only threatened, however, for there is no intention whatever on the part of the people of Canada to surrender public liberty into the hands of a dictator, even for a limited proportion of the population. There are better resources to safeguard civil rights and the liberty of the Press than are to be found in the virtue of any legislation. Those rights and that liberty constitute an hereditary freedom which must be passed on unimpaired to the generations yet to come.

## OPPRESSIVE TAXATION

While industry has made a remarkable recovery in the face of steadily increasing taxation—which is a tribute to management—the race between governments, Federal, Provincial and municipal, to share to an even greater extent in the gross turnover of business shows no signs of abating. To what extent industry can carry a heavy burden of taxation without collapse is problematical, but recent financial statements show unmistakably that corporation taxation, already excessive, has become a serious threat to stability. A move to alleviate matters is essential to industrial progress.

Banks have been a special target for tax legislation. The recent passage by the Alberta Legislature of banking statutes is illustrative of a general trend so far as higher taxation on banks is concerned. Only in the final purposes of the Alberta legislation is the action of the Social Crediters different from the general tax drive on banks. According to a writer in The Monetary Times the chartered banks of Canada, from 1923 to 1936, paid \$100,000,000 in taxes to the Dominion, Provincial and municipal governments. In 1936, the ratio of taxes to bank profits was only 32.94 per cent. In 1935 the ratio had risen to 50.53 per cent, and in 1936 increased taxation had increased the ratio to the extent that the banks paid 69.7 cents in taxation for every dollar disbursed to shareholders. Such a situation must reflect itself adversely upon industry and business generally.

The utilities constitute another group particularly hard pressed. During the last ten years, direct taxes paid by the British Columbia Power Corporation have increased approximately 105 per cent, while gross revenues advanced only 12 per cent, and last year the amount paid was \$1,600,000, without taking in taxes paid on materials purchased and other levies incorporated in operating expenses and not shown in bulk. Last year the Ottawa Light, Heat & Power Company, a comparatively small utility, paid \$231,317 in taxes, against \$216,616 in the preceding year and \$210,187 in 1934, all three amounts being greater than the total of common dividends paid in the respective years.

In the last report of Silverwood Dairies, Ltd., it was stated that taxes were becoming almost confiscatory, with Dominion income tax, partly due to cancellation of exemptions, showing an increase of 100 per cent in four years and other levies showing a similarly heavy increase. In sales tax alone the Silverwood enterprise paid approximately \$100,000 last year, as against \$5,000 in 1930. In the textile industry, heavy taxation again is evident. This year the Dominion Textile Co., Ltd., must provide \$819,543 for taxation before paying one cent in dividends. Taxes (not including gasoline taxes) paid by the British American Oil Company last year amounted to more than

\$2,500,000, equivalent to 98 cents per share on the issued capital and only two cents less per share than the amount distributed to shareholders. The amount collected by Provincial Governments from the consumers of the company's gasoline was \$4,898,335, equivalent to \$1.68 per share.

The taxes paid by Canada Bud Breweries is illustrative of the tax burden in the brewing industry. In 1936 net profit of the company amounted to \$1.12 per share, while the company's tax costs in the same period amounted to \$667,600, or \$4.45 per share, four times the amount actually available for the shareholders.

It is hoped that with higher revenues from other sources, the governments concerned will be able to abolish some of the corporate assessments imposed during the depression. This would provide larger amounts for necessary capital expenditures, allow higher wages and permit larger distributions to shareholders, thus generally increasing business to the advantage of all concerned.

## LONDON CALLING!

It is a step in progress that has been made by the arrangement between the Canadian and British Broadcasting Corporations whereby London calls the Dominion during a stated time each day. The programme which comes to this country from the British capital is varied, and because the run of it is taken during the time set aside it has necessarily some weaknesses, that is from the viewpoint of those who demand a high standard. A broadcasting system caters to lower as well as high intelligences. In this respect it is like the Press. Therefore, when London calls, the series of broadcasts may contain jazz, operatic, symphonic and choral music and an occasional address on some theme of international interest. It is a matter of taking the rough with the smooth. What is pleasant, however, is the excellent enunciation and the accurate pronunciation of the British broadcasters. They have obviously been trained in a most exacting school, and in this respect they have a lesson to teach those who go on the air on behalf of the national system in Canada. There is right and wrong as to the spoken word. If broadcasting is to be educational, it should make every effort to enunciate with the utmost clarity and to give, in every case, the true dictionary pronunciation of words. "London Calling!" is at least telling us that broadcasting is a profession that can reach heights of intellectual attainment whereby surplusage of words and repetition are avoided and excellent English is spoken.

## PRINCIPAL OF McGILL

The new Principal of McGill University is an American citizen. Dr. Lewis Williams Douglas, of New York and Arizona, is aged forty-three and a graduate of Amherst College. He studied at the Massachusetts Institute of Technology, and his public career commenced in 1923 when he was elected to the Arizona State Legislature, and two years later named "member at large" for that State in the House of Representatives at Washington. He resigned from the Congressional office in 1933 to become a director of the Federal Budget under President Roosevelt. He has degrees of LL.D. from both Amherst and Harvard, and in 1935 delivered the Godkin lectures at the latter university.

The association of Dr. Douglas with Canada is through his father and grandfather, who were natives of Quebec. The latter was Chancellor of Queen's University and a governor of McGill, and he made a handsome bequest to the latter university which enabled the Hall of Residence to be erected on the slopes of Mount Royal. The Montreal Gazette states that the new Principal of McGill, who is to assume his duties on January 1, has "a brilliant record of achievement."

A phrase that would bring back almost forgotten memories would be that "the financial outlook justifies further substantial reductions in taxation." In a phrase-making age, that is one that has been forgotten in northern climes.

He that will live in this world must be endowed with the three rare qualities of dissimulation, equivocation and mental reservation.—Behn.

## Note and Comment

By Sandham Graves

Let others argue about the potency of air attack on defended and undefended positions, here are a few observable trends in Europe which may in time change all present conceptions of cities. To begin with, man has possessed the surface of the earth, believing it safe. On the surface, he has gathered people into areas of massed residences and businesses, fed by road, by rail or by river from the surrounding countryside. Roads and railway tracks can be cut from the air, and rivers can be blocked by sinking vessels. With the threat of a food embargo for those who live in cities. In addition, pipelines carrying water, transmission lines carrying power and light, sewers and subterranean works are no longer unreachably by a determined enemy. If man must have enemies, he may be forced sooner or later to one or two alternatives; mass evacuation of the cities in times of threat, or the complete abandonment of the surface in favor of subterranean communities, far underground. If that seems far fetched, consider what is already being done in most countries. The storage of food underground has begun. Military plans for the evacuation of entire cities have been prepared. Light bomb-proof and airproof chambers have been built into homes, hotels, hospitals and public buildings generally. Cities have been given an inner and an outer ring of defences by counter-aircraft and artillery, by tanks and balloons, and systematized warnings by sirens and drills. "Blackouts" have been held, even as in war, to teach citizens to put out every light which would be visible from the air. When all these measures have been taken, there still remains the probability that, in the event of hostilities, some aircraft would get through with bombs capable of penetrating to the deepest known form of cover. Civilian panic is not a new weapon of war.

Many people arguing the case, get side-tracked into a futile discussion of the relative merits of land, sea or air forces. The truth probably is that all three are separate arms, with distinct uses, and those uses are not chiefly directed against each other but concerned with entirely separate forms of warfare. The air has come into more than usual prominence because it happens to be the newest medium, with the necessity for air patrol as apparent as that of the land and sea. The air surface or plane, while the air ocean is divided into countless surfaces or planes, reaching now to the stratosphere some miles up in the heavens. New distances and new speeds have become involved, shortening the distance between the major capitals of the world. It is a little of a pity, too, that in thinking of the air we are inclined to look back to what was possible in the Great War. The airplane has advanced a great deal since then; and flying has become an entirely new science to what it was twenty years ago. Nor can anyone count with safety on the range and performance of the airplane in more recent engagements, encounters between partly mobilized forces not of the first rank of world powers. The imponderable element in the case is that aircraft in any future large-scale conflict would exhibit a brand-new set of tricks, far in advance of the primitive flying of 1914-1918. Grant freely to armies and navies the same degree of improvement, particularly with respect to tactics, mechanization and gunfire, and still you come back to the fact that the air goes to the stratosphere, and man has learned to go there, too.

Now here is the real question: What will be man's reaction to even the threat of the obliteration of his cities on the surface of the ground? Will he, in future, build cities? If he does, will he build them on the surface, or underground? If you have read the air drill regulations of a few of the capitals of Western Europe in what we might as well accept as the primitive stages of the development of aviation, you will have your own answers to those questions. There are far larger questions, of course. One is how far can man go in the development of the means of destruction without bringing on a test of destruction, and chaos? In a world growing so small and so confined, may nations in their definitely perpetual animosities, calling some friends and others enemies? Those are questions for which you will not find any immediate, any easy, answers. Probably they are problems which the world will have to work out slowly and painfully in the future; slowly because the mind of man takes a long, long time to adjust itself to changing conditions, altered facts; and painfully because the human animal has to learn by experience, which never sells at a cut-rate figure and knows no bargain-days. Let others argue about the potency of air attack on defended and undefended cities, but make no mistake about this: flying is changing, has changed the world!

Up in the Okanagan they catch their members of Parliament young, and train them in the way they should go. I will not break confidences, but two fruit-growing communities have banqueted a new member of the Nineteenth Legislature, and have instructed him on some twenty-seven points at the coming session of the House. They are concerned with highways, and ferries, with schools and hospitals, with municipal limits and civic management, and with many other practical things of express interest to their citizens. It is an intelligent way. A representative in Parliament should be armed with some representations which reflect the

community he is to serve, as well as provincial thought as a whole. What are Victoria's representations?

## MORE DEATH SENTENCES

MOSCOW, Oct. 12 (AP).—Eight more death sentences were reported from the provinces today for persons charged with spoiling grain supplies or disrupting collective farming. Four were in Kazakhstan, three in Khabarovsk and one in Uzbekistan.

## The Observation Car

By THE EDITORIAL STAFF

**Dark Streets**  
Many of the city's boulevard streets are dark leafy tunnels at night because of heavy foliage on the trees. In some cases conditions were improved through taking out alternate trees, but the job was done solely because their roots penetrated and damaged drains. If trees were carefully pruned every year streets would be much lighter, but it seems that annual pruning is not being carried out. At the rapid rate leaves are falling, the dark street condition will automatically right itself for Autumn and Winter months. During our four daily trips through Pioneer Square on Quadra Street we notice the grass is in poor condition. The Parks Committee might cheer us by putting a gang of men to work taking out the hundreds of dandelion plants. The Lighting Committee has accomplished a fine piece of work in replacing obsolete arc lights with powerful globes. In many localities improved road reception was the direct result of the committee's labors. But there are still many sources of radio interference that might be eliminated. Man-made electrical noises are on the air twelve months per year. Fortunately natural static only lasts from May to October.—G.B.

## Glancing Over Sport

New York Yankees humiliated Bill Terry's Giants so badly in the world series that the Brooklyn Dodgers sat on the side lines and figured they could have done just as well as Mr. Stoneham's team. Picking a series hero isn't very tough if you put two and two together and figure it out. There's only two selections and that's Tony Lazzeri and Vernon "Lefty" Gomez. Lazzeri, who figures he is too old to continue active service for the Yanks at second base, led the New York champions in the bat column. Gomez pitched the opening victory and also the final one to keep his straight record intact with five straight triumphs. This puts him on the same ladder as Herb Pennock, one time great Yankee chucker, and Jack Coombs, old-time Athletics' mound ace. And they said the Yankees couldn't hit southpaw pitching. Three of the four portside stars flared as the great Hubbell alone succeeded once in two attempts to halt the carnage. And did you notice that the defence of the Giants wasn't so good. Nine errors in five games isn't anything to boast about by a National League pennant winner. At the same time the Yankees played errorless for another series record. Seven of the Giants' misplays were made by the infield, four of them by the reliable Dick Bartell, shortstop. Joe DiMaggio hit one so hard and so far in the final game that I don't think they have located the ball yet. At the local park it would have landed down near Queen's Avenue or somewhere.—J.D.

## Books

The genre of the Fourth Estate, who for the most part chronicle history no older than a day, read without plan, on occasion, tales that are ancient, or contemporary. In recent spare moments, I have discovered anew those delightful fables, "The History of the Kings of Britain," to learn again how Brutus, who gave his name to the Britons, raised up a city on the Thames he called New Troy, and how his successor, King Lud, threw a goodly wall about the place, which was thereafter known as London. I have reread Baxter's fascinating chronicle, "Strange Street," and of his adventures on that thoroughfare which takes its name from the turbulent stream, long buried in London's heart, "The Fleet." And finally I turned to Joltho's "Edward VIII," a strange mixture of hero-worship and savagery, of the young Prince who could do no wrong, and the headstrong King, who could do little right. It was left for me to wonder, at the end of the book, which described how the edifice of high hopes had crumbled into so much ash, if all Britons felt as Bolitho—or if they were more charitable to a man, who found the high pinnacle of Kingship strangely remote, and very lonely. They are interesting volumes these, and fair

companions for an evening by the fireside, now sombre October days are here.—B.G.

## Living Going Up?

We're not writing this as a direct criticism, but merely acting in our role of reporter, and reporting what we noticed in a downtown store window. A merchant has a receipt in his display window, that he states he received from the Marketing Board for the sale of eleven sacks of potatoes. The receipt was issued for the sum of \$2.83, or twenty-five and eight-eighths cents a sack. Potatoes at the time were costing the householder just \$2.50 a sack. But what makes it worse the cheque wasn't issued until a month or more after the sale of the vegetables and then it was a week or two before it was mailed.—W.I.P.

## BRITISH-ISRAEL

Sir,—May I be permitted, through the medium of your paper, to state in answer to many inquiries, that the British-Israel World Federation (Canada) Inc. has no connection whatever with the Empire Theatre Ministry; and further that the Federation emphatically repudiates any such suggestion as that put forward by Mr. Orr on Sunday night, that British-Israel believers should start their own church for the spread of their beliefs. The British-Israel World Federation, being undenominational, has always deprecated any such suggestion or attempt, fully realizing that the hope of the World lies, not in a multiplication of creeds, but in one united belief in Jesus Christ. —E. W. ABRAHAM, President, Victoria and District Association of B-I. W. F. (Can.) Inc. 1125 Pithul St., Victoria, B.C. Oct. 11, 1937.

## TRAFFIC FACILITIES

Sir,—On Wednesday, September 29 there was little evidence of forethought shown by the management of the V.I.C.L. between 4 and 5 p.m. outside the Saanich Fair. There were some large and small coaches parked in a field opposite the fair grounds most of the afternoon, and several drivers were seen waiting about the place; but at 4 p.m. all these men disappeared. One of the small coaches was within twenty feet of the high road, the door was open and there was no notice on the same. It began to rain and a number of ladies and gentlemen who held return tickets to Victoria took their seats in this bus, being the one which had brought many of them out. In the absence of an, notice it was supposed that this coach would be one to leave at 4:20 p.m. which was the time given out by the driver which brought up the stages. At 4:20 the stage coach from Sidney passed the parked bus, and it was found out afterwards that only four passengers got in at Saanich. The result was that those in the parked bus had to wait until 6 p.m. when a driver had been brought out by stage to take it in.

This long and inconvenient delay could easily have been prevented if a notice had been provided the driver by the office, to stick on the inside of the door when he left the coach to return to town. This notice would not have had to state that the bus would not start till 6 p.m. and that the 4:20 bus would stop opposite the fair entrance on the high road.

I hope this lesson will be taken to heart on all similar occasions, for it is necessary to guide the traveling public. F. V. LONGSTAFF, Major, retired, 50 King George Terrace, Victoria, B.C., Oct. 10, 1937.

## "HAND-WRINGING EMOTIONALISM"

Sir,—In your recent editorials entitled, respectively, "Censoring the Press," "Civil Rights" and "Long-Distance Dictatorship," you seem to have excelled yourself in hand-wringing emotionalism. Why all this terror at the prospect of the Alberta legislation? Surely, if the newspapers are merely asked to publish the origin of news items there should not be anything very terrifying in that, and one cannot read into the proposed legislation anything that will prevent the press from continuing misrepresentation of the Government's proceedings. Personally, I think it is high time that something was done, as it is quite obvious to any intelligent reader that the newspapers are full of "half truths," if not actual falsehoods. In your editorial of October 8 entitled "Civil Rights," you give a good example of the former in the following sentence: "The entire principle and purpose of most of the Social Credit legislation is equally objectionable." Now, why don't you finish your sentence and state to whom it is objectionable? Lots of things are objectionable to certain people. Castor oil is very objectionable to the small boy, but that does not mean that it isn't good for him. Of course, this proposed legislation is objectionable

to you and all newspaper editors holding other political views. Your Conservative views are probably as equally objectionable to the Liberal press! And certainly the new economic viewpoint is objectionable to all who are controlled by "financial dictatorship," of which we are all slaves under our present monetary system.

Thank God Canada has one Provincial Premier who, to use a vulgarism, has "the guts" to attack, and if possible expose, the financial dictatorship which so oppresses and which knows no laws except "self" and "greed."

I venture to suggest that should you, Mr. Editor, state one word in your editorials favoring Social Credit proposals, you would not hold your job very long, for you are a slave, too, and must give lip service to the "arch-dictator," which is "orthodox finance."

Again I say, thank God Canada has one Provincial Premier who has the welfare of the people at heart and has also the courage of his convictions.

A. H. R. GOWIE.

## SOCIAL CREDIT

Sir,—I notice that Mr. Charles Ellis takes as the basis for his criticism of Social Credit in a recent letter his belief that under Social Credit producers would be "given an amount to balance increasing prices."

It is no wonder Mr. Ellis has difficulty in understanding Social Credit if he thinks this. Nothing of the sort is contemplated by the Social Credit proposals.

Instead, Social Credit is a method of keeping prices stable. With a constantly growing production of wealth made possible by our capital facilities for producing wealth, the volume of money in existence must grow as the production of wealth grows. Otherwise there will be a continuous fall in the price level.

As Mr. Reginald McKenna stated in one of his addresses to the shareholders of the Midland Bank when he was fighting the deflationary policies of the Bank of England: "We must have more money when we have more production, if we are to avoid the deflation and unemployment, which result when a falling price level, caused by the people not having sufficient money to buy the goods that are on sale, prevents producers from recovering the total costs of the goods, which are their prices."

The position is put clearly by Mr. Graham F. Towers, Governor of the Bank of Canada, who said in March, 1931, McGill Monthly: "Since business is conducted in terms of money, it seems obvious to say that an increase in business would require an increase in money, if prices are to remain stable."

Mr. Ellis seems to believe, also, that if any additions are made to the volume of money, even though production of wealth is increasing by leaps and bounds, there will be inflation. If he believes this, his quarrel is with the bankers, not with Social Credit.

Under Social Credit the right amount of money to keep prices stable in an expanding economy would be issued, but it would be issued by the government as debt-free credit, not, as at present, as debt to the banks, which all the money is that we now have. It is all owed to the banks, who created it as debt to themselves.

And that is the only quarrel the bankers have with Social Credit. They want to issue the required new money as debt to themselves, whereas Social Credit proposes that the nation—that is, the people—shall issue it. J. CHALMERS, 3541 Saanich Road, Victoria, B.C., October 9, 1937.

Arrived Early From  
British Isles

From the United Kingdom by way of Panama and California ports, the Royal Mail Line's Lochkatrine was due to reach Rithet Pier at 2 o'clock this morning, according to an announcement by Adam P. Moffatt, local agent for the line. The Lochkatrine will discharge some 250 tons of general this morning and continue to Mainland ports on completing her business here, which includes the loading of some local merchandise.

Passengers aboard the combined freight and passenger liner include Colonel R. J. Parkhurst, general manager for the company, and Mrs. Parkhurst, who have been on a visit to England, and W. A. Wray, who is making the round trip on the vessel.

## DUE TOMORROW

One day late, the American Mail Line's Ss. President Jackson is expected here at 7 a.m. tomorrow. The Jackson is bringing in about 225 passengers in all classes, and has approximately 1,000 tons of general cargo to discharge here, the bulk of which will go overland.

## LUMBER VESSELS

## BIGGEST WHALER

The Unitas, reported to be the largest whaling vessel in the world, was launched last month in the Weser River Shipyards at Bremen, Germany. The vessel is approximately 193 metres in length and about 292 metres in height, has a measurement of 21,000 gross tons with a loading capacity of 30,000 metric tons, and will have a speed of 11 1/2 knots, it is stated. The ship will be equipped with modern machinery, and the newest whale-catching and cooking facilities, and will carry a crew of 400, including the fishing and cooking crews.

## BUILD MANY TANKERS

The recent launching of the motor vessel British Integrity, a motor-driven oil tanker for the British Tanker Corporation, calls attention to the extensive programme of tanker construction which has been undertaken by Harland & Wolff during the past fifteen months. During the period, almost 100,000 gross tons of tanker tonnage have been completed or are at present under construction at the company's Govan shipyards.

## VANCOUVER SHIPPING

VANCOUVER, Oct. 12.—The fish packer Ragna, object of an intensive search by airplanes, Government patrol boats and fishing vessels from Cecepece on the West Coast of Vancouver Island to Cumshewa Inlet in the Queen Charlotte Islands last week, was reported safe today.

The Ragna reached Bella Bella Saturday. She was delayed after striking a log which damaged her propeller.

Ms. Shelco was instrumental in refloating the small tanker Aleutian Native off the jetty on the north arm of the Fraser River Saturday.

The Shelco pumped 30,000 gallons of oil from the stranded vessel's tanks into her own and then assisted in the refloating of the small ship when the tide came in.

Two Months and Cost  
\$20,000

VANCOUVER, Oct. 12.—Repairs to the Ss. Soloy, Norwegian freighter which grounded in the Strait of George two weeks ago, will cost approximately \$20,000, officials of the Burrard Drydock Company said today.

Tenders for the work were opened on Monday and the bids submitted to the vessel's owners in Oslo, Norway.

It was found the vessel's hull had been badly crumpled, her bottom set up about four feet, her keel bent and the side plates buckled.

The entire bottom will have to be renewed and the hull practically rebuilt forward of the engine-room. Repairs will take about two months.

POSTMASTERS  
COMING HERELarge Party En Route to  
National Convention Arriving  
on October 16

Over 400 United States postmasters on their way to San Francisco for their 1937 national convention will visit Victoria on Saturday, October 16, William Harold, of the local Great Northern office, stated yesterday. Just how long they will remain here, Mr. Harold did not know.

The annual convention of the National Association of United States Postmasters will be held in San Francisco, October 19 to 21. The postmasters are traveling Great Northern, which arranged and is conducting the tour in co-operation with the association. The party left Chicago yesterday on two special trains. In Montana, the trains will stop at the Fort Peck Dam and in Glacier National Park, October 14.

The party is scheduled to arrive in Spokane, October 15, where they will be joined by Idaho and Eastern Washington delegates. Arrangements have been made at Spokane for a trip to the site of the gigantic Grand Coulee Dam, and in Seattle the contingent will be entertained at dinner, October 15.

After the trip to Victoria, the postmasters will go to Portland. They will visit the Bonneville Dam before proceeding to San Francisco. The post-convention tour will include stops in Los Angeles, Hollywood, Tucson, El Paso and Juarez, Mexico.

MANSLAUGHTER  
CASE IN COURTE. C. Loughlean Charged  
With Causing Death of  
W. G. Plowright

With only one case to be disposed of at this sitting of the Assize Court, proceedings opened yesterday morning with the trial of Edwin C. Loughlean, charged with manslaughter arising out of the death of W. G. Plowright, a musician of this city, who came to his death on July 7, when he was struck by an automobile allegedly to have been driven by the accused at the junction of the Island Highway and Admiral's Road.

In order to give the jury a better understanding of the evidence the members visited the scene following the luncheon adjournment. Some witnesses accompanied the court to explain the whole situation.

Mr. Justice D. Murphy is presiding.

At the opening of the trial, Alexis Martin, for the Crown, outlined circumstances connected with the death of Mr. Plowright. At times he was interrupted by Stuart Henderson, counsel for the accused, who

said too much latitude was being allowed in introducing evidence.

His Lordship said Crown counsel was going rather fully into the evidence, but he was disposed to allow him to take this course as long as he kept within bounds.

Mr. Martin described the trip of the party in the car involved and driven by Charles Adams to Sooke. Adams, said counsel, would testify he found the brakes worked badly, and that on the way back from Sooke the accused drove the car.

There would be evidence to show a stop was made at Seventeen-Mile House where three glasses of beer were consumed and sandwiches. At Six-Mile House, two miles from the scene of the tragedy, more beer had been consumed.

Mr. Plowright, said counsel, was sixty-nine years of age and was in good physical condition and possessed of all his normal faculties.

Mr. Plowright, said counsel, was leaving the bus to go to his home at Seaview when he was struck down by a car and run over. A bus driver ran to help and saw an automobile astride the ditch and the deceased just behind the front wheels.

**POLICE EVIDENCE**  
Constable P. H. Brown testified the accused was, in his opinion, intoxicated and had refused to assist police by answering questions and was abusive towards Ed. Wilkinson, driver of the bus who was giving police the facts.

Mr. Wilkinson said the accused was abusive when he (witness) ran to the car after the accident, and also when he asked him to stop trying to start his car, telling him there was a man under the car.

The jury is composed of Harold F. Hewlett (foreman), Ethel Webb, William B. Orr, Percy D. Gill, Harry Daah, Christopher Dresser, Ernest H. Gandy, Louis Firth, Doris J. Newmarsh, James E. French, James W. Okell and Richard J. Ashmore. The trial will be continued today.

All other cases scheduled for hearing at this Assizes were stricken from the docket at the request of Crown counsel.

An English tourist, holidaying in the Highlands, was caught one evening in a severe snowstorm. After much wandering, he came at last to a lonely cottage, where he was given a meal and invited by the master of the house to stay the night.

Feeling thoroughly contented with life, and wearing an old suit of his host's while his own was drying in front of the fire, the tourist started to go upstairs to fetch his pipe from the bedroom. On the landing he encountered the mistress of the house.

There was very little light, and the good woman mistook her guest for her husband.

Dealing him a fine crack over the head with a broom she was carrying, she cried:

"That's for asking the man to stay the night!"

Now in Canada!

## FIRST LOYALTY IS DUE TO DOMINION

Continued from Page 1

His Excellency spoke of the need for wide and general knowledge of world affairs, declaring "the day has come when foreign policy can be the preserve of a group of officials at the Foreign Office." The foreign policy of a democracy must be the cumulative views of its individual citizens, and if these views are to be sound they must in turn be the consequence of a widely diffused knowledge.

### NO EXEMPTION

From this duty, Canada was not exempt, the Viceroy declared, as he asserted Canada must determine her own attitude on world affairs. "If the Commonwealth in a crisis is to speak with one voice," he said, "it will only be because the component parts have thought out for themselves their own special problems and made their contribution to the discussion, so that a true common factor of policy can be reached. A sovereign people must, as part of its sovereign duty, take up its own attitude to world problems."

### KNOWLEDGE ESSENTIAL

Whether that attitude was "wise and well-informed or short-sighted and ill-informed" depended on knowledge. Diffusion of that knowledge was one of the institute's objectives. Until thirty or forty years ago, Lord Tweedsmuir declared, it might be said that the ordinary British citizen had only an academic interest in foreign affairs. Today, the picture had been changed by the shrinkage of distance. "What is happening 3,000 miles away," the Governor-General said, "may have a direct effect upon the safety and prosperity of the private citizen. Therefore every nation must have a foreign policy in the sense that it must consider its position vis-a-vis to the world at large. "The political security, its economic prosperity, compels it to have some reasoned attitude toward the outer world."

## How to Make a Splendid Cough Remedy at Home

### A Big Saving, and It's So Easy! No Cooking!

Cough medicines usually contain a large quantity of sugar syrup—a good ingredient, but one which you can easily make at home. Take 2 cups of granulated sugar and 1 cup of water, and stir a few moments until dissolved. No cooking! No trouble at all. Then get from your drug store 2½ ounces of Pinex, pour it into a 16 oz. bottle, and add your syrup. This gives you 16 ounces of really splendid medicine for bad winter coughs. It makes it real saving for you, because it gives

## FIVE TENDERS FOR B.C. WORK

Bids for Port Alberni Police Building Range Up to \$11,159 for Project

Bids between \$6,545 and \$11,159 were opened by the British Columbia Department of Public Works yesterday for the proposed construction of a new Provincial Police court-room, jail and barracks at Port Alberni.

Tenders were as follows: Robert Cruickshank, \$11,159; R. McCoubrey, \$6,545; Thomas N. Peterson, \$6,545; Philip Fort, \$9,589; and C. Drummond, \$7,586. All tenders were referred for analysis and report.

Specifications call for a frame wooden structure, to accommodate seven Provincial Police officers in the area, with a lock-up and court-room facilities elsewhere in the same building.

## HEAR STORY OF BONNIE CHARLIE

Burns Club Members Have Night of Scottish Songs And History

The stirring tale of the leadership of the Scottish Highland clans by Bonnie Prince Charlie was told to a large gathering of members of the Burns Club, in the Chamber of Commerce auditorium, by Duncan MacBride last night. Musical expression was given to the highlights of the address by solos and trios contributed by Mrs. W. A. Jameson, Alec McDougall and J. J. Matheson.

The evening opened with the singing of "Ye Banks and Braes" and bagpipe selections by Pipe-Major Donald Cameron, after which W. B. Grant, president, extended a welcome to a large number of new members, remarking that the Burns Club would soon be the largest Burns Club in the world once again.

### ROMANTIC EPISODES

Mr. MacBride told of some of the most exciting and romantic episodes in Scottish history, tracing the career of Prince Charles Edward Stuart from the time when he burst into prominence in 1745, through the battles fought with the English, to his flight from the shores of the land he loved, Prince-Charles's name would be loved and sung as long as brave men lived and true hearts beat in Bonnie Scotland, the speaker concluded.

During the course of Mr. MacBride's address, Mrs. Jameson sang "Cam Ye by Albyn" and "Over the Sea to Skye"; Mr. McDougall rendered "Sound the Pibroch" and "Culloden Moor" and Mr. Matheson contributed "March of the Cameron Men" and "Hey, Johnnie Cope." The concluding musical item was by the trio, "Bonnie Charlie's Noo Awa."

A hearty vote of thanks was passed to the speaker and the artists on the motion of Adam Bell.

### ELECTED TO OFFICE

The president announced that the executive, at its last meeting, had unanimously elected the past president, W. A. Jameson, to the vacant office of honorary vice-president.

W. Sterling, South African veteran, was welcomed as a guest of the club.

The next meeting will be held on November 9, when Scottish songs, illustrated by living pictures, arranged by Mrs. A. S. Christie, will be presented.

## Celebrated Eightieth Birthday Here

FRANCIS W. COLLIN

An old pioneer and "sourdough," who celebrated his eightieth birthday yesterday, has been mining and farming in British Columbia for sixty years. Born in London, he came to Canada in 1877 and took up a mining claim at Cassiar. In the early '80s Mr. Collin farmed at Deep Cove, and in 1887 went into the Spallumcheen, now Enderby, settling there in the days before the railroad. After making two farm homes in that district, he left in 1920 to take up residence in Victoria. A brother, T. A. Collin, was the first man to walk from the Red River to the Fraser River over the Prairies and Rockies, making the arduous journey in 1870.

## NEW OFFICERS ARE SELECTED

P. J. Meikleburgh Is Chosen President of Saanich Conservative Body

P. J. Meikleburgh was elected president of Saanich Conservative Association last evening, replacing W. H. Carr, who was thanked cordially upon retirement at his own request. The association went on record as being strongly opposed to the alienation of mineral and timber resources of the province by sales to Oriental interests, and will send copies of a covering resolution to the B.C. Conservative Association and to Hon. A. W. Gray, B.C. Minister of Lands.

With the exception of the office of president, all officers were elected by acclamation. Mr. Meikleburgh was elected on a first ballot, on which H. A. Hunt and John Patterson were included. Mr. Patterson was chosen first vice-president, Miss Hazel Fletcher second vice-president, F. J. Butters third vice-president, and H. A. Hunt secretary-treasurer.

### ARE DELEGATES

W. O. Wallace and W. H. Carr, past president, were named as members of the executive at large. The following were chosen as delegates and alternates to the Nanaimo Federal Conservative Association: Mesdames McQueen, Osborne, Carr, Lawrie, Wallace, Price, Miss Fletcher and Messrs. Meikleburgh, Carr, Holmes, Wallace, Butters and Lawrie. President Meikleburgh will also represent Saanich Conservatives at the forthcoming meeting of Provincial Conservatives at New Westminster on October 30.

Interested in national defence and in Canada's support of the British Commonwealth of Nations in matters of defence, the meeting arranged to invite speakers at following meetings to discuss these subjects, starting with R. D. Harvey, president of the Victoria Conservative Association, at the next monthly gathering.

Standing committees were struck and plans laid for ward organization in Saanich immediately. The press was thanked for fair and impartial reports of Saanich Conservative meetings.

### MESSAGE TO DOCTOR

As one of their first acts, Saanich Conservatives sent a special message of good wishes to Hon. Dr. S. F. Tolmie, M.P., coupled with sincere hopes for his speedy recovery. Annual reports showed progress made during the year, and referred to the excellent showing made by Leslie F. Osborne, who contested the riding at the last provincial election.

Mr. Carr, who occupied the chair for most of the year past, and Fred Pat, secretary-treasurer for three years past, were warmly thanked for untiring services. Both asked to be relieved of duties, due to pressure of private affairs. Choice of auditors for the ensuing term was left in abeyance. Standing committees got down to work at once, after the annual meeting.

## GIRLS WHO HAVE NO BOY FRIENDS

Quick Easy Way to Get Charm

Girls who don't attract boy friends wonder why. Beautiful, perfect features are not the reason. Charming and famous women were often ugly. Have nice skin, plenty of animation, and watch out for your figure—you'll be surprised how popular you are. So many girls have poor complexions—no life—their figure slipping, and don't realize it. Take "Fruit-A-Tives" and you'll soon be around how different and how attractive you've become. It purifies your blood, makes the skin pores work, gets rid of waste and poisons, gives you new energy, prevents fading from fatigue. "Fruit-A-Tives" gives you new charm. 25c, 50c.

## City and District

**Case Remanded**—In the city police court, yesterday, D. Galvin was charged with assault upon John Demers. The accused entered a plea of not guilty, and was remanded until Friday.

**Home Addition**—A \$1,500 city building permit was granted yesterday to Col. Lorne Ross for a three-room addition to his dwelling at 942 Courtney Street. Sutton & Sons are the contractors.

**Barred Screens**—Police yesterday investigated an attempt made the previous evening to enter George Jay School. Screens were removed from several windows, but no entry was actually made.

**Hold Cabinet Meeting**—Acting Premier John Hart presided over the regular Tuesday meeting of the Provincial Executive yesterday. The Cabinet meeting briefly without public pronouncement to follow.

**Gasoline Stolen**—R. Morrison, 2641 Estevan Avenue, reported to police yesterday that gasoline had been siphoned from his automobile while it was parked on Flagg Street, Monday night. A gasoline cap was also missing.

**Apple Day Results**—The apple day held last Saturday by the Victoria Boy Scouts' Association, netted the sum of \$310.06. The officials in charge of the affair wish to extend their thanks to the public, who so generously supported the sale, and the Scouts who sold the apples.

**Car Recovered**—An automobile stolen from William Greenhalgh, 932 Johnson Street, at 7:50 o'clock last evening, was recovered on Tye Road by Sergeant Arthur Bishop at 10:20 o'clock. When found, the automobile engine was still warm.

**Garage Entered**—J. M. Edwards, 706 Broughton Street, informed police, yesterday morning, that his garage had been entered by thieves. Detective Walter Caldwell found entry had been gained through a window. Two fountain pens and a rubber stamp were missing.

**Grows Freak Flower**—An unusual marigold, having multiple heads, has been grown by Mrs. Lohrburner, 705 Connaught Street. When the main bloom withered, eight short bud stems grew out of the old head, and five of these were in bloom when the freak flower was brought into The Colonist office.

**Bakery Building**—R. H. B. Ker secured a \$4,500 city building permit yesterday covering addition of a bake shop and flour storage space to premises at 1044½ Pandora Avenue. The building will be of brick and masonry construction. Williams, Trerise & Williams, Ltd., are the contractors.

**Killed in Accident**—William R. Davies, employed at the Wood & English sawmill, Englewood, came to his death from accidental causes while working at the site on Monday, a coroner's jury reported yesterday after an inquest arranged by the Provincial Police. Details of the tragedy were not learned here.

**Premier in East**—Continuing his tour in the East, Premier Pattullo will return to Ottawa this week for further conversations with the Dominion Government and Federal Departments. It was said yesterday at the Legislative Buildings, Ben Hethy, his private secretary, is with the Premier, who is not expected back in Victoria until next week.

**Robberies Reported**—Two robberies took place at Up-island points over the holiday, according to information in the hands of the Island division of the Provincial Police yesterday. Theft of some jewelry was reported at Port Alberni, and another robbery in the vicinity of Parkville. Provincial detectives were sent out from Victoria to investigate.

**Executives Here**—Among yesterday's arrivals at the Empress Hotel was K. W. Harvey, Woodstock, Ontario, vice-president of the Harvey Knitting Company, and an officer of a number of other woolen goods firms. He is on a business trip and is accompanied by C. H. Harris, Hamilton, Ont.; C. M. King, Toronto, and G. F. Hunter, Vancouver, who are all connected with the woolen goods business.

**Report Is Completed**—The annual report of the British Columbia Inspector of Municipalities has been completed, with respect to the calendar year 1936. It will be issued shortly by the Department of Municipal Affairs, after the return of Hon. A. W. Gray, expected back from the Interior today. Mr. Gray inspected irrigation systems in the Interior of the province, and examined a request for water at Camp Lyster.

**Pay Tribute**—Standing in silence, members of the Burns Club paid a tribute to the memory of their late honorary vice-president, George C. Grant, at their meeting last night. W. B. Grant, president, said the deceased was one of the original members of the club and had always taken a keen and active interest in its affairs. He tendered the sympathy of members to Mrs. Grant, who for many years had faithfully ministered to the sick of the Burns Club.

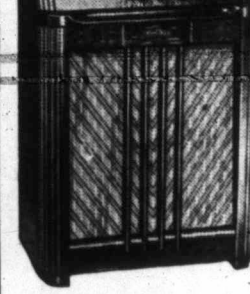

**To Attend Banquet**—Attorney-General Gordon S. Wismer will leave Victoria on Thursday to attend the annual buffalo meat banquet for the Vernon and District Fish and Game Association on the day following. James G. Cunningham, of the British Columbia Game Board, will display films of British Columbia wild life at the banquet, which annually draws a large attendance from Okanagan towns in the area. Fond of hunting, Mr. Wismer may take a few days' vacation, with a gun, after the affair.

**Seek Legal Advice**—The Esquimalt Council last evening referred the matter of the suggested dismissal of a school trustee to its solicitors for a decision. The matter arose following a communication from S. J. Pomeroy, secretary of the school board, reporting that Major G. H. Sisman, a member of the board, had failed to attend the last three meetings of that body. According to the municipal by-law, this would disqualify him from continuing on the board. Reeve Lockley pointed out. However, it was decided to seek legal advice, before taking action.

**Using Carnegie Gift**—In connection with the "Evenings With Favorite Composers" lecture series being conducted by Stanley Builey on Thursday evenings at the night school this year, extensive use is being made of the valuable Carnegie gramophone library recently given to the Department of Education. A complete synopsis of the course is available and notes of each lecture are distributed to the class. Tomorrow's class will take up the study of Mendelssohn, which will be concluded with the playing of the Italian Symphony and the violin concerto in E minor. The lectures are non-technical and are specially designed to appeal to the layman.

Royal Commission on Federal-Provincial matters. The report was adopted.

Briefly, the report asked for full restoration of pari-mutuel tax and liquor revenue grants, turning over to the city proceeds of amusement tax and part of the gasoline tax, the full cost of education to be borne by the Provincial Government, full cost of hospitals to be assumed by the same Government, additional superannuation burdens to be borne by the Government and unemployment relief be taken over by the Federal Government.

### PASSED BY COUNCIL

Other finance committee recommendations adopted were payment of \$70 per month to the rat catcher, as from April 1, a grant of \$75 to the Victoria Horticultural Society, that the Provincial Government be asked to grant permission for the city to mimeograph the voters' list instead of having it in printed form, superannuation of W. E. Evans and Alfred Halsey, confirmation of appointment of Miss M. Tubman to the city solicitor's office at \$80 per month, cancellation of unpaid debentures of \$175,887.38 issued but unpaid in 1917, and sale of \$46,000 sewerage bonds to help meet payment of \$47,000 in 5 and 5½ per cent maturing city bonds.

Alderman Morgan informed the council one of the biggest problems was the B.C. Electric franchise. He moved and Alderman Worthington seconded a motion that Mayor McGavin and Alderman Wills negotiate for an outside expert to advise the council. The motion carried. Alderman Wills announced A. T. Goward, vice-president and general manager of the company, would attend a meeting of the franchise committee at the City Hall, Friday afternoon.

### SEEK MORE AID

A report of the finance committee, Alderman Dr. J. D. Hunter, Williams, Morgan and T. W. Hawkins, urged that a letter be forwarded to Premier Mackenzie King and the Executive Council asking that the City Council be allowed to incorporate a plea for increased financial assistance in a Provincial Government brief for presentation to a

### GO F. FACTS NOT THEORIES

Alan Morrison

In playing strange courses the judgment of distance is a big factor. The new course may be only a few miles from your home layout, but the different arrangement of hazards and other landmarks will throw you off.

If you are swinging as well as usual, the judgment of distance is up to your eyes, and it is very easy to be deceived by what your eye takes in at a hole. For example, you may figure that an iron shot to the green is actually 150 yards. A flat, unbroken stretch of fairway is very hard to judge.

On the other hand, you may be in doubt about carrying a bunker or water hazard some distance away from your ball. If you are in doubt as you make the attempt, you will fail invariably so that your execution does not match your judgment. In most cases you can land your ball right on the spot your eye has picked if you make your regular swing. This takes confidence, assurance that you have judged the distance properly.

Well, here is a good way to do this—pick some object along either side of the fairway or on the line of play that is short of your goal, measure the distance to this object and compare this length with the over-all distance of the shot. This will give you a more accurate line-up for the shot.

## Beautiful Church Wedding Takes Place at Nanaimo

NANAIMO, Oct. 12.—The marriage of Maudeline Brooks Ross, daughter of Mr. and Mrs. T. C. Ross, Lake Cowichan, formerly of Victoria, and Mr. William Robert Malpass, son of Mr. and Mrs. Robert Malpass, numbered among the earliest pioneers of Upper Island, was solemnized by Rev. W. P. Bunt in St. Andrew's United Church on Monday evening amid a beautiful floral setting, effected with rows of silver baskets filled with Michaelmas daisies and harmonizing shades of gladioli and stately palms. The bride is a native daughter of Duncan and the groom is a native son of Wellington.

To the strains of wedding music played by Mr. Andrew Dunsmore, the bride entered the church on the arm of her father, and she wore a gown of sheer silk net over bridal satin designed along regal lines, the flared skirt rippled to a train and was gored to a point in front, effecting a French waistline. A bolero of Chantilly lace had fully puffed elbow sleeves, and a Queen Elizabeth collar trimmed with rows of small buttons and inset bands of Chantilly lace ran horizontally on the overskirt of silk net. She wore a Duchess of Windsor net cap trimmed with corded silk and orange petals on the off-face brim and tiny bunches of waxed orange blossoms at each side. Her wedding veil was shirred to the cap and fell to finger-tip length. She carried a bouquet of gardenias, pink rosebuds and heather and wore white net mittens.

**ATTENDANTS' FROCKS**  
Mrs. A. W. Ross, Lake Cowichan, aunt of the bride, was matron of honor, wearing a becoming gown of floral nylon in orange and brown shades, designed with a flared, toe-length skirt and rippling short

sleeves. The bodice had a draped neckline and was belted with more taffeta in daffodil yellow. She wore a wreath of bronze and yellow violets in her hair and yellow net mittens and carried a shower bouquet of golden and bronze chrysanthemums.

Miss Margaret Ross, sister of the bride, was bridesmaid and wore a striking gown of pale pink taffeta, moulded in form-fitting lines, which dipped to a slight train. A jaunty bolero with elbow puffed sleeves was trimmed with taffeta plaiting, and she wore a garland of daisies on her head and net mittens to match her gown. She carried a shower bouquet of pink carnations, maidenhair fern and bouvardia. Mr. Wallace Malpass, brother of the groom, was best man.

During the signing of the register, Mr. D. Campbell, Lake Cowichan, sang. The ushers were Mr. C. S. Ross, Mr. W. A. Ross and Mr. J. Gibb, Lake Cowichan. Mrs. Charles Wilson decorated the church.

**RECEPTION AT HALL**  
A reception for 200 guests followed the ceremony at Pleasant Valley Hall, where Mrs. Ross, mother of the bride, gowned in midnight blue crepe trimmed with matching cut velvet and a blue velvet turban, received the guests, assisted by the mother of the groom, who wore an ensemble of blue and matching accessories. They both wore corsage bouquets of roses and gardenias.

Refreshments were served from a beautifully appointed table, centred with the bride's three-tier cake. Lighted candles, and roses and gardenias in silver containers completed the arrangements.

Mr. and Mrs. Malpass left by motor for Victoria, en route to California, and upon their return to the island will reside at Lake Cowichan.

## Helping With V.O.N. Sale

MRS. F. W. HARTLEY

Who is assisting with the annual rummage sale to be held at the corner of Government and View Streets, on Saturday, in aid of the Victorian Order of Nurses. An urgent appeal is being made for contributions of clothes or any household articles to be left at the V.O.N. headquarters, Room 108 Pemberton Building, or telephone G 1858 to be collected.

## Will Observe Anniversary With Supper

The Fairfield United Church will celebrate its anniversary on Monday, October 25, with supper to be held in the church, commencing at 6 o'clock.

Mr. Herbert J. Pendray has kindly offered to show his colored moving pictures of the Coronation and scenes from his recent trip to South America and South Africa, which are very beautiful and interesting. The showing of the pictures will take place after the supper at 8 o'clock, and will be seen in the upper lecture room.

In connection with the anniversary the pastor, Rev. Norman J. Crees, is arranging special services. The supper is being prepared by the Women's Association of the church, and a splendid musical programme has been planned which should be of interest to all, a variety of numbers being included.

## I.O.D.E. Activities

### Royal Bride Chapter

The tea arranged by the Royal Bride Junior Chapter for next Saturday, at which time Miss Amy Heddle was to give her impressions of the Coronation, has been cancelled, and it has now been arranged for her to speak at the monthly meeting of the chapter at Municipal headquarters, Union Building, on Saturday, November 6. This meeting will be open to the public and anyone interested will be welcomed at 3 o'clock.

## Delivering Of Milk to Start Soon

Distribution of milk to under-nourished children in the public schools will commence as soon as lists have been received. It was made known last night at the monthly meeting of the Dr. O. M. Jones Chapter, I.O.D.E., under whose sponsorship the supplying of the milk is made possible. The sum of \$90 per month was voted towards this fund.

Mrs. J. W. Hudson, regent, presided during the business session and gave an interesting report on the Provincial annual meeting at Duncan last week. She gave a report on the sale of cookbooks to the Provincial Exhibition and thanked all who assisted. Mrs. F. F. Beckett reported that the I.O.D.E. calendars were ready and an order for forty calendars was voted.

A rummage sale will be held on Saturday at the corner of Government and Johnson Streets. Those having old clothes for this purpose are asked to telephone Mrs. Hudson at E 6010.

Under the auspices of the Municipal Chapter, a talk on the Pan-Pacific Conference will be given in the near future by Mrs. Allan Campbell, to which the members are looking forward.

## Clubs-Societies

## ENGAGEMENTS

### MOWAT-RODMAN

Mr. and Mrs. S. T. Rodman, Granville Avenue, Saanich, announce the engagement of their second daughter, Estelle Victoria, to Mr. George N. Mowat, of Victoria. The wedding will take place early in November.

## Burlesque Is Enjoyed By Theatre

A burlesque, produced by Mr. Arthur Kerr, entitled "Folled, by Heck!" by Frederick G. Johnson, was the highlight in the programme presented at the monthly meeting of the Little Theatre Association, held last night in the clubrooms, Rockland Avenue. Equally entertaining were the stunts performed by Mr. William Harkness, the Canadian Houdini, who fascinated the audience with his baffling card tricks and illusions.

The play was in one act and entailed some very clever acting, which was successfully achieved through the admirable ability of the producer, Mr. Kerr.

The two major parts were taken by Mr. Archie MacCorkindale as Clarence Codd, the hero, and by Mr. John McLaren as Sylvester Brewster, the villain, and both did excellent work. Miss Helen Thomas as Irene Hanks, was the heroine, and she and Miss Grace Tuckey, as Olivia de la Vere, the sweetheart of the villain, portrayed their roles convincingly, while Mr. Arthur Long, as Reuben Hanks, and Mrs. C. E. Beale, as Mrs. Matilda Hanks, acted their parts splendidly.

During the intermissions the orchestra, under the direction of Mrs. C. C. Warn, played "Bal Masque" (Fletcher), "Three Songs From Elland," and "Barcarolle." The hall was filled to capacity for the two performances, which received prolonged applause from the audience. The programme was preceded by a short business meeting conducted by the president, Mr. Harry Davis. Refreshments were served at the conclusion of the meeting.

## Chinese to Hold Party Today in Aid of Refugees

In aid of the refugees in Shanghai, the Chinese Women's Committee will hold a tea and chop mein party today from 1 p.m. to 11 p.m. to which the public is invited. The affair will take place in the Chinese Benevolent Association Hall, Pisgah Street, opposite the Police Station.

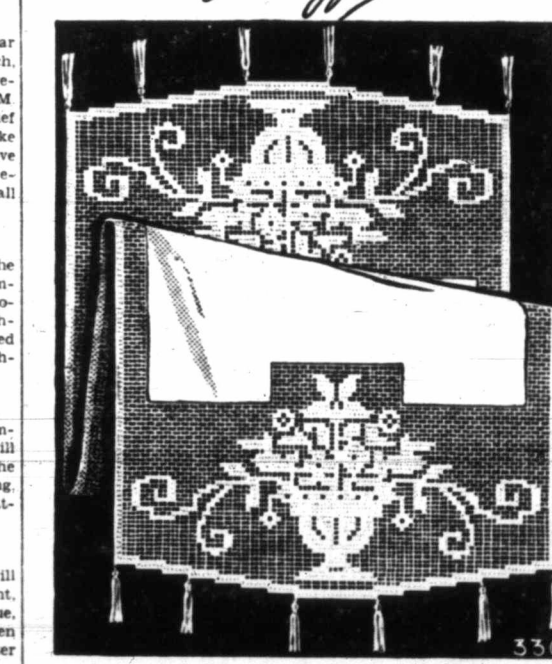

A variety entertainment by Chinese artists has been arranged and everything will be carried out in an Oriental atmosphere. Tickets may be obtained at the door and an invitation is extended to the interested public.

### PRONUNCIATION

A show, "Cavalcade," was being put on. A foreigner who was having difficulty in pronouncing English gave up when he read in a morning newspaper — "Cavalcade pronounced success."

Mrs. D. A. Young, B.A., Toronto, Addresses Audience On Health Beauty

"External beauty depends upon internal order" was the dictum of Mrs. D. A. Young, B.A., Toronto, in the lecture she gave yesterday afternoon in the Chamber of Commerce Hall under the auspices of David Spencer, Limited. Her subject, "Health and Beauty Through Scientific Support," will be the theme of further lectures this afternoon and tomorrow afternoon at 2:30 o'clock in the same hall.

"You can't look your best or feel your best with faulty body mechanics, and your whole body framework depends on posture. You can consider the body posture correct if, when standing, a vertical line from the ear would pass through the shoulder, hip and ankle," she told her audience.

## Wedding Date Is Announced

LONDON, Oct. 12.—The wedding of the Marquess of Clydesdale and Lady Elizabeth Percy, twenty-one, sister of the Duke of Northumberland, will take place December 2, it was announced tonight. Their engagement was announced last week.

They will be married in St. Giles Cathedral, Edinburgh. Lord Clydesdale, who is thirty-four, is the heir of the Duke of Hamilton. A Conservative member of the House of Commons, he headed the 1933 expedition that flew over Mount Everest.

## WOMEN'S INSTITUTES

### SOUTH SALTSRING

Under the auspices of the South Saltspring Institute, and for the benefit of furnishings for the new hall at Puffin Harbor, which is now nearing completion, an enjoyable progressive five hundred party was held on Saturday evening, at the home of Mr. and Mrs. J. J. Shaw. The rooms were decorated with sweet peas, gladioli and other autumn flowers. Ten tables took part in play, Mr. J. Cairns acting as master of ceremonies for the evening. The first prize winners were Miss Tilly Akerman and Captain L. D. Drummond, with consolation going to Mr. Pat McLennan and Mr. D. Cornish. The hostesses were responsible for the table and supper arrangements, in which

they were assisted by Mr. Patterson. The prizes were donated. The sum of \$12 was cleared.

### GANGES

The Mahon Hall was crowded to capacity Friday evening, when, under the auspices of the Ganges Institute and organized by the executive, Mrs. Charlesworth, Mrs. W. M. Mout, Mrs. T. P. Speed, Mrs. H. Johnson and Mrs. W. Palmer, an entertainment especially arranged for the young people, was added to the presentation of prizes to winners of the children's gardens competition, sponsored last Spring by the Ganges Institute. The entertainment took the form of an exhibition of moving pictures by Mr. Douglas Flinoff, Victoria. The prizes were awarded by the president, Mrs. Charlesworth. At the close of a successful evening, Mr. Flinoff expressed his pleasure at his second visit to the island. After expenses are settled, the proceeds derived from the entertainment will be sent to the distressed areas in the Prairie Provinces, for which subscriptions are still coming in.

### VICTORIA

The October business meeting of the Victoria Institute will be held at the headquarters on Friday at 2:15 p.m.

### GANGES HELPS FARMERS

In response to the appeal made for the distressed farmers of the Prairie Provinces, the Ganges Women's Institute and the Ganges Chapter I.O.D.E. has collected, packed and sent away three tons of vegetables, fruits, canned soups, honey, preserves, etc., from the residents of Saltspring Island.

## Women's Council Appreciate Study Of Unemployment

Many Matters Under Discussion at Meeting Held Yesterday—Provincial Council to Meet Here in November—Bringing Dr. Nadine Kavinoky For Special Health Lectures

APPRECIATION of the work done by the National Employment Commission was expressed by the Victoria Local Council of Women at its monthly meeting yesterday. Following the able resume of the commission's findings given by the president, Dr. Olga Jardine, Mrs. C. C. Spofford, Provincial Council president, expressed the view that the commission had been very fortunate in having as its head a man of such practical experience as Arthur B. Purvis, president of Canadian Industries, Limited.

The meeting considered a number of resolutions that will come before the Provincial Council of Women meeting to be held here about November 25. One, emanating from the Vancouver Local Council and asking that the Provincial Government be urged to assist municipalities to provide special educational classes for subnormal and feeble-minded children, was endorsed, with the added recommendation that the Council should examine the educational facilities already provided for such children.

**PROTECT CASCARA**  
The meeting also endorsed a resolution asking the assistance of the Provincial Government to provide protection for the cascara tree. In speaking to this resolution, Mrs. Hugh Mackenzie called attention to the fact that this was the only part of the British Empire where this commercially valuable tree was to be found, and that it was threatened with extinction because of bark-stripping by Indians.

## A Pretty Little Victoria Girl Social and Personal

ways welcome to Manitoba, declared "at the same time we feel we cannot lend our influence and encouragement to any scheme of wholesale migration of people from outside our frontiers until such time as solutions have been found for our own pressing economic problems, more particularly unemployment and inadequate markets for our exports."

Mrs. Allen Campbell, reporting for the League of Nations committee, noted that the Victoria branch of the League of Nations Society deeply regretted the departure of Dean Quinlan, who before leaving had expressed his undying faith in the League. She also reminded members that November 8 to 14 was Peace Week. The League of Nations Society in Victoria was requesting all local organizations that possibly could have speakers on peace at their meetings at that time.

On Sunday, November 7, there would be "international" interchange of pulpits, and many local churches would have visiting clergy from the United States. Mrs. H. P. Hodges was asked by the meeting to give, at the November meeting of the council, her address on "What Women Have Accomplished for Peace."

**SEND GREETINGS**  
Mrs. Spofford, who is to visit the Nanaimo Local Council next Monday, was asked to convey greetings from Victoria Council.

The meeting endorsed the action of the executive in sending a bouquet to Mrs. Franklin D. Roosevelt during the recent Presidential visit. Correspondence included a letter from the White House, Washington, thanking the council for the gift.

In response to a communication from the Council of Social Agencies, which is taking up the question of purchase and right use of food in homes, the executive of the Local Council will appoint representatives to the special committee engaged in this matter.

The meeting paid standing tribute to the memory of the late Mrs. Llewellyn Thomas, a valued member, convener of the standing committee on cinema and printed matter.

transport, including airports, railways, docks, canals and irrigation. Sir John suggested a Government-guaranteed Empire settlement loan plan under the Empire Settlement Board.

C. G. Ammon, Labor M.P., stated the holding up of migration fostered unemployment both in the United Kingdom and in the Empire. Each new settler, he said, was a new customer. On the other hand Tom Smith, also a Labor member of Parliament, said he found during an Empire tour that neither Canadians nor Australians were enthusiastic for any big assisted migration plan.

## PREMIERS STATE VIEWS

The Premiers of Saskatchewan, Manitoba and New Brunswick, in letters read to the conference, gave guarded approval to the movement of British settlers to Canada.

Premier A. A. Dymally said New Brunswick looked favorably on British settlers "providing they are suitably adapted to farming and financially responsible." Naturally, he added, they must be men of good character, with clean habits, and be adequately financed and fully supervised.

Premier W. J. Patterson referred to resolutions adopted by the Saskatchewan Legislative Assembly favoring British migration and added: "The Government of Saskatchewan has repeatedly expressed sympathy for, and agreement with, development of a plan which would encourage British settlement of this Province, provided such a plan ensured that the movement of settlers is voluntary and that they are properly selected, adequately financed, and efficiently supervised."

Premier John Bracken, after remarking British settlers were al-

## House Warming and Shower

Miss Gwendolyn Addison, whose marriage to Mr. Harry Williams will take place on Saturday, was complimented last evening when her co-workers at the Royal Dairy entered for her an elaborate shower.

The affair, arranged at the new home of Mr. and Mrs. E. A. Evans, Reynolds Road, was also a house warming, the host and hostess being presented with a bedside lamp by the guests. Miss Addison's gifts were presented in a large "tin of paint" which stood between a Satin-Glo boy and a large Royal Dairy cone, the former representing Mr. Williams' company and the latter Miss Addison's. On behalf of the staff, Mr. C. W. McAllister presented Miss Addison with a handsome case of flat silver in the Adam pattern. Phlox in lovely pastel shades were used throughout the reception rooms. Games and contests were played, after which a buffet supper was served from a table lighted by tall green tapers in silver holders, and centred with a silver bowl of varicolored phlox. The guests were Mr. and Mrs. Ernest A. Evans, Mr. and Mrs. C. W. McAllister, Mr. and Mrs. William Heston, Mr. and Mrs. Don Corbett, Mr. and Mrs. Robert Wood, Mr. and Mrs. H. Barracough, Mr. and Mrs. A. Hunter, Mr. and Mrs. T. Bailey, Mr. and Mrs. T. Mattick and Misses Vera Kerslake, R. Galle, L. Cannon, H. Haines, June McAllister, A. McQuarrie, M. Longley, C. Schmelz, Sheila McAllister, and Messrs. P. Parry, T. Cassidy, R. Cummins, Harry Williams, William Maysmith, Frank Wickens and A. McAllister.

**Children's Party**  
Mrs. C. Shipley, 1257 Rudlin Street, entertained at a children's party, held in honor of the seventh birthday of her son, Billy, on Saturday afternoon. The room was decorated in blue and white, while the table was centred with a birthday cake having seven candles. Games were played during the afternoon. Mrs. Shipley was assisted by Mrs. H. Dobson and Mrs. Sims. The young guests were Betty and Billy Sims, Shirley and Junior Manson, Donald and Audrey Shipley, Billy Nickelson, Arthur and Dave Warrington, Jimmy Lewis, Jimmy Atkinson, Jackie James, John Crossley, Evelyn Crabbe, and Billy and Larry Shipley.

**Hostess at Tea**  
Mrs. Edward Warburton entertained on Monday afternoon at her home, 62 Cambridge Street, in honor of Miss Nora Reid, whose marriage to Mr. Jimmy Warburton will take place this week. The guest of honor was presented with a set of silver teaspoons. The guests included Messdames MacDonald, A. Craven, G. T. Fox, Palmer, Ridgway, A. Sayer, Westdale, G. Fagan, G. Brakes, and Misses P. Fox, E. Warburton, A. Warburton, I. MacDonald, E. Sayer, M. Craven, M. Forrester and D. LePage.

**Delighted With City**  
Mme. P. J. Dow, who has been visiting Dr. and Mrs. B. R. Mooney, 644 Linden Avenue, for the past few days, left yesterday for her home in Edmonton. A native of Corsica, the city in which Napoleon Bonaparte was born, Mme. Dow came to Canada about twenty years ago. She came to the Coast to visit a daughter living in Vancouver, and seized the opportunity to visit her old friends, Dr. and Mrs. Mooney, and see Victoria for the first time. She expressed herself as charmed with its beauty and individuality.

## At the Empress Hotel

Many guests from California are registered at the Empress Hotel and include Mrs. A. McCallum, Mervyn Kelly, Miss J. M. Blair, Mrs. S. Stillman, Mrs. E. Maxwell and Dr. Alice Maxwell, San Francisco; Mrs. E. E. Lewis, Mrs. M. C. Moore, Miss E. G. Scott, Los Angeles, and Mr. and Mrs. G. B. Mauser, Hollywood. Other guests include Mr. and Mrs. J. J. Holland, Mr. and Mrs. E. L. Newhouse, New York City, and Lawrence A. Fernsworth, London.

## Back in Vancouver

Mr. Francis Gregory has returned to Vancouver to resume his studies at the University of British Columbia, after spending the long week-end with his mother, Mrs. F. B. Gregory, Craigdarroch Road.

## To Live in Vancouver

Miss Harriet Nathan, Dalhousie Street, has left Victoria to make her future home in Vancouver, where the Dominion Government Indian Affairs office has been transferred.

## Leaving for States

Mr. S. D'Este, Comox, who has been spending a few days in Victoria, is leaving for a round of visits with friends in the United States, but expects to return to Victoria shortly before Christmas.

## With Sisters Here

Mr. Lawrence Wyles, of the Canadian Bank of Commerce, Vancouver, is in the city in connection with an inspection visit, and is staying with his sisters, the Misses Nellie and Ethel Wyles, 1388 Begbie Street.

Continued from Page 1

Government. Victor in Port Arthur. Mr. Cox will sit as a private member. Three of the new ministers have never sat before in the Legislature. They are Hon. Gordon Conant, member-elect for Ontario; Hon. Colin A. Campbell, defeated in Addington, and Hon. Eric Cross, member-elect for Haldimand-Norfolk. Mr. Campbell resigned his Frontenac-Addington seat in the House of Commons to run for the Provincial House, and a seat will be found for him.

The new Attorney-General, Mr. Conant, has practised law in Oshawa since 1912. Mr. Campbell, Minister of Public Works, is a mining engineer. He sat as a Liberal member of the Federal House from 1935 until his resignation recently. Mr. Cross, thirty-two, and youngest Cabinet Minister, is Minister of Municipal Affairs and Welfare. He headed the Ontario Municipal Board until recently.

Other Cabinet newcomers were members of the last Legislature. They are Hon. Harold J. Kirby, who becomes Minister of Health; Hon. P. M. Dewar, Agriculture; Hon. M. MacBride, Labor, and Hon. W. L. Houck and Hon. St. Clair Gordon, Ministers without portfolio.

## ESTABLISHES PRECEDENT

Precedent was established in Ontario by the appointment of Mr. Kirby, Toronto lawyer, to administer the Health Department, always headed in the past by a medical doctor.

At no time in his previous administration did Mr. Hepburn have

more than eleven ministers. He started in 1934 with ten and in December, 1936, added Mr. Cox as Minister without portfolio.

Only new department is that of Labor, which formerly was administered by the Municipal Affairs and Welfare office. Premier Hepburn promised in the election campaign he would establish a separate Labor Department, and tonight he placed in charge Mr. MacBride, eight times Mayor of Brantford and former premier.

Minister without portfolio, Mr. Houck also was appointed a member of the Ontario Hydro-Electric Power Commission. Also appointed to the commission was Major J. A. Smith, of Kitchener, Liberal member-elect for Waterloo North. Third commissioner and chairman is T. Stewart Lyon.

Other Cabinet newcomers were members of the last Legislature. They are Hon. Harold J. Kirby, who becomes Minister of Health; Hon. P. M. Dewar, Agriculture; Hon. M. MacBride, Labor, and Hon. W. L. Houck and Hon. St. Clair Gordon, Ministers without portfolio.

TELLS OF VISIT  
TO THE ORIENT

Ald. W. T. Straith Declares  
Japanese People Do  
Not Want War

The opinion that the great majority of the Japanese people are not in sympathy with their leaders in the Sino-Japanese trouble, and that the military authorities are making their last stand, was expressed by Ald. W. T. Straith, M.P.P., in an address to members of the Kiwanis Club in the Empress Hotel yesterday. The speaker declared that the Japanese as a whole were a most likeable people, but were being badly misled.

Alderman Straith reviewed the events leading up to the trouble in the Orient, and gave a graphic description of his own experiences in Shanghai during the bombing of the city. There had been much talk about the Chinese army bombing their own city, the speaker said, but the dropping of the missiles in Shanghai was accidental, due to the fact that the pilot was wounded while circling over the city, causing his hands to relax and release the mechanism controlling the bombs.

The havoc of which modern instruments of warfare were capable was described by the speaker, who told of the killing of 1,050 persons and wounding of many others when two bombs were dropped on the most crowded part of Shanghai, described as the busiest corner in the world.

Guests of the club were the Moody Musical Messengers (Douglas C. Davies, baritone; Elliott N. Lindblad, bass, and Cornelius C. Keur, tenor), who are associated with the Moody Centenary celebration which is in progress in the city. The visitors rendered a group of three Moody and Sankey hymns, and Walter M. Walker, president, extended the club's thanks to them for their contribution.

On behalf of the club, Mr. Walker heartily endorsed the Community Chest campaign, which is to open on November 1 and continue until November 8, and asked all Kiwanians to support the appeal to the best of their ability.

## At the Theatres

**ATLAS** Star of screen and radio, **THEATRE** Don Ameche plays opposite Alice Faye in Twentieth Century-Fox's musical, "You Can't Have Everything." The Ritz Brothers, Charles Winninger, Louise Hovick, Rubinfeld and his violin, and Tony Martin are featured in this picture, which shows for the last time today at the Atlas Theatre.

**CAPITOL** "Broadway Melody of 1938," spectacular new vehicle for Robert Taylor and Eleanor Powell, who are co-starred, is the current film-fare at the Capitol Theatre. There are many unusual scenes in this new picture, and Buddy Ebsen and George Murphy assist Miss Powell in some of her spectacular dance routines, one of which includes a chorus of 100 dancing girls.

**DOMINION** "They Won't Forget," now playing at the Dominion Theatre, is a burning indictment of sectional bigotry and prejudice and of mass emotion and hysteria. Heading the cast are Claude Rains, Gloria Dickson, twenty-year-old newcomer to the screen, Edward Norris and Allyn Joslyn.

**OAK BAY** With Alice Faye separating the eminent feudists, Ben Bernie fiddles while Walter Winchell burns in "Wake Up and Live," the glamorous, galorous musical hit produced by Twentieth Century-Fox, which shows for the last time today at the Oak Bay Theatre.

**PLAZA** "Dinner at 8," showing for the last time today at the Plaza Theatre, has a brilliant cast including such well-known names as Marie Dressler, John and Lionel Barrymore, Wallace Beery, Jean Harlow and Lee Tracy.

## UNDERSTANDABLE

Mrs. Smith and Mrs. Brown were neighbors. It was not surprising, therefore, that they occasionally indulged in a "few words," with compliments the order of the day. Said Mrs. Smith one fine morning: "Huh! Mrs. Brown, you've got odd stockings on!" Mrs. Brown was, as always, equal to the occasion. Smiling her sweetest smile, she replied loftily: "Yes, dearie. I can understand that surprise! yer; but it's a thing wot often 'appens to liddle wots more than one pair."

## HOLD DISCUSSION ON CREDIT TERMS

Address of R. E. Baylis, Toronto, Is Subject of Talk at Weekly Luncheon

L. E. Evenden, manager of the credit department of the Hudson's Bay Company, Limited, led a round-table discussion on "Liberalized Credit, Its Disadvantages and Effects on Buying Power," at the weekly luncheon meeting of the Credit Granters' Association, in Spencer's dining-room, yesterday.

The subject under discussion was an address given by R. E. Baylis, credit manager of T. Eaton & Company, Toronto, at the recent Eastern conference.

Mr. Evenden read the address, which outlined credit and then showed the disadvantages of carrying out this policy, taking into particular account, long terms.

Long-term selling was hurting business generally the article showed and some attempt should be made to educate the buying public on a sound credit basis.

The fluctuation and effect of installment plans on durable and non-durable goods was also brought out in Mr. Baylis' written address.

A communication was received from L. S. Crowder, St. Louis, manager of the National Retail Credit Association, who will be in the city on November 5. It is hoped to have a meeting of all the local members with Mr. Crowder.

## All Tickets Gone For Swim Classes Carded Next Week

Enthusiastic Response From Children as List Closes for Daily Colonist "Learn to Swim" Campaign, Opening at Crystal Garden Monday Afternoon—500 Registered Yesterday

Classes for The Daily Colonist "Learn to Swim" campaign are now made up. Such was the announcement made yesterday evening as the last of the 500 tickets were issued to youngsters eager to take part in the free six-week swimming course offered by The Daily Colonist.

Registration commenced at the Crystal Garden office yesterday. Slowly at first, then, as school was released, the children came with a rush, lining up at the office windows waiting in a line-up to register their names. Shortly after 6 o'clock the lists were completed and, regretfully, the officials were forced to explain to all comers that the tickets were gone.

**RECORD SET**  
This enthusiastic reception over-rides that which met the previous "Learn to Swim" campaign, sponsored by The Daily Colonist in 1933. On that occasion the lists were made up on the following day, but the success of the previous drive has served to prepare the way for this one, and already the youngsters, 500 of them between the ages of eight and twelve, have their classes allotted them and are pre-

pared for the opening of the course next Monday.

**TECHNICAL CO-OPERATION**  
The Colonist "Learn to Swim" campaign is conducted with the full co-operation of R. Raymond, manager of the Crystal Garden. The pupils also gain the advantage of fully competent instructors, Fred and Mary Ellison having charge of the different classes. These classes will be held every weekday (with the exception of Saturday) at 4 o'clock and again at 4:30 in the afternoon, the course continuing until November 27, at which time it is virtually assured that practically every child entered in the drive will be able to qualify for the handsome diplomas presented to those passing the tests.

Mr. Raymond stresses the necessity of punctuality on the part of the children. The tickets, which they have been issued are clearly marked with the day and hour at which they are requested to attend, and it is essential that the children be on time. These classes are absolutely free, the only equipment the children are asked to bring being a bathing suit and a towel.

## Roaring Away in Hill Climb Contest

Charley Davies, on his Indian, is shown roaring up the steep incline of Mount Douglas in the event for novice riders, in the annual hill climb of the Victoria Motorcycle Club on Monday. Although Charley seems to be "going over the top," his bid for victory went unrewarded, as he stalled four feet from the tape. Louis Kaelin, Seattle, and Newton Cameron, Victoria, took top honors in the big meet. Kaelin captured the F. W. Francis Challenge Trophy in the open event, and Cameron walked off with both the novice event and the Paul Girardeau Trophy. A section of the huge crowd is shown preparing to duck the clouds of dust and sand the riders liberally sprayed over them.

## THREE SQUADS ARE PREPARING

Rangers, Ramblers and Falcons to Open Training Camps This Week

WINNIPEG, Oct. 12 (P).—Three professional hockey clubs, New York Rangers, of the National League, and Philadelphia Ramblers and Cleveland Falcons, of the International American circuit, open training camps here Friday.

Manager Lester Patrick of Rangers, whose amateur school closed here Sunday, expects only two of his Ranger "originals" for the 1937 camp—Frank Boucher and Butch Keeling—while another of the club's veterans, Murray Murdoch, will be with the Rambler farm club.

Bill Cook, star of many Ranger campaigns, is managing the Cleveland team, with the possibility the club may win a National Hockey League franchise next season.

With the National Leagues in camp, Patrick expects Dave Kerr, goal; Art Coulter, left; Heller, Joe Cooper and Babe Pratt, defence; Phil Watson, Cecil Dillon, Lynn Patrick, Neil Colville, Mac Colville, Alex Shickley, forwards.

Three of last year's Ramblers, Bobby Kirk, Clint Smith and Bryan Hextall, probably will be promoted to Rangers as a new front line. All three saw some action with the major team last season.

The probable Rambler campers are Bert Gardiner, goal; Larry Molyneux, Vernon Ayres, Hugh Gustafson and Murray Patrick, defence; Danny Cox, Murray Murdoch, Lloyd Roubell, Eddie Wares, Joe Kelly, Normie Mann, Bill Carse, Krol MacDonald, Lude Wareing and Cliff Barton, forwards.

**Joins the Rovers**  
WINNIPEG, Oct. 12 (P).—All Pike, captain and ace centre of Winnipeg Monarchs, last year's Dominion hockey champions, has been added to the New York Rovers. It was announced today by Lester Patrick.

## CHUCK NICKASON FACES McCOMBER

SEATTLE, Oct. 12 (P).—Promoter Nate Duxman announced today signing Jock McComber, Tacoma, to fight the highly regarded Chuck Nickason, hard hitting Vancouver B.C., light heavyweight, in a six-round semi-final on the October 19 card.

Main events will be Allen Mathews, crowd-pleasing St. Louis Negro middleweight, and Joe Smalwood, Philadelphia, who signed for the 10-round distance.

**NON-AID COMMITTEE SEEKS WITHDRAWAL**

Continued from Page 1

"very precise" data on the French position with regard to Premier Mussolini's refusal to discuss withdrawal of Italian troops from Spain in a conference with Great Britain and France.

The French viewpoint, reports from Paris indicated, embraces willingness to give Italy "one last chance" to fall in line by calling the Twenty-Seven-Nation Non-Intervention Committee to consider the question of foreign troops.

**WOULD LIMIT TIME**

The committee would be given a limited time in which to act. If Italy refuses to come to definite terms, France would announce Great Britain's approval of opening the French border to arms shipments for the Spanish Government, authoritative French sources said.

Even under the Non-Intervention Committee course, however, French and British diplomats were considered likely to insist on a very restricted sub-committee to deal with the foreign figures issue.

Talk of moderation in both Paris and London lessened European tension.

**WINS JOCKEY CLUB CUP AT NEWMARKET**

NEWMARKET, Suffolk, Oct. 12 (P).—Lord Glanely's five-year-old Buckleigh, by the 1924 Derby winner Sansovino out of Surline, today won the Jockey Club Cup over two and a quarter miles, defeating the Marquess of Londonderry's Columelle by three lengths.

Anthony de Rothschild's Suzerain, starting at 15 to 8, was third in the field of four, trailing Columelle by four lengths. The winner started at 13 to 2 and Columelle at 9 to 4. The race was worth about £757 (\$2,850).

## PEDENS HOLD FIFTH BERTH

Victoria Riders Slip in Montreal Six-Day Race—Muzz Patrick Well Down

MONTREAL, Oct. 12 (P).—The French combine of Emile Ignat and Emile Diot regained a lap they dropped earlier to the Germans, Kellan and Vopel, tonight in Montreal's six-day bike grind, but the flashy Frenchmen still were in second place by a wide point margin.

"Torchy" Peden and brother Doug lost ground in the late pedalling and dropped to fifth place behind the Rodman-Gadour, Walthour-Crosley teams.

## ESQUIMALT IN POLO VICTORY

Defeats Duncan Club for Cowichan Trophy After Overtime Match

Defeating the invading Duncan Polo Club in the final match for possession of the Cowichan Trophy, by a 5-5 score, after an overtime session, Esquimalt Polo Club gained its most cherished victory of the season over the week-end at the Foul Bay ground of the Victoria Centaurs.

In Duncan's opening match the Uplanders came through with a 4-3 overtime decision over Victoria.

Duncan trailed by three goals against Victoria but rallied desperately and evened the score in the fifth chukker and then went on to win the match in the first extra period.

Esquimalt were paced to victory through the fine playing of B. Deane-Freeman and Dr. M. L. Olsen, in No. 3 position. Both accounted for two goals each after some fine riding and shooting ability. Duncan rallied as they did in their opening tussle and tied the score in the sixth period at five all, but the hard-riding Esquimalt team came right back in the overtime chukker and Dr. Olsen scored the deciding goal.

G. G. Bais, Duncan captain, and Dick Bais, each scored twice for the victors.

Line-ups and goal scorers follow: Esquimalt—B. Deane-Freeman (2), D. L. Macdonnell (1), Dr. M. L. Olsen (2) and A. Landale (1).

Duncan—G. G. Bais (2), Dick Bais (2), H. Carberry and B. Dennie (1).

## One Killed When Car Leaves Road

KINGSTON, Ont., Oct. 12 (P).—One was killed and four women injured seriously today when their automobile plunged from No. 2 highway three miles east of Kingston and turned over three times. Slippery pavement was believed responsible for the driver losing control of the car.

The dead, Rev. Stanley Gartung, of Norrisburg, Ontario.

The injured: Mrs. Gartung; Mrs. Fred Casselman; Mrs. Ralph M. Swedfager and Mrs. Austin Salmon, all of Morrisburg.

A woman, born and bred in Australia, had reached her eightieth birthday. Unexpectedly, she received a large sum of money, and there was much excitement among her friends.

"Well, Mrs. Kelly," said one of them, "I suppose you will be taking a trip to England now?"

"What?" replied the woman, in great indignation. "The country where the convicts came from!"

## KIMON KUDO AND DAWKINS ARE MATCHED

Japanese Wrestling Expert To Face Chicagoan in One Half of Double Main

KIMON KUDO

Kimon Kudo, the Japanese jiu jitsu expert who recently took a mat decision from "Man Mountain" Dean, 320-pound bearded grappler, will tackle "Scotty" Dawkins, Chicago, in one half of the double main event on Saturday night's card at the Tillamook gymnasium. Promoter Fred Richardson completed plans yesterday for showing here of Kudo and Dawkins, who just came out from the East to wrestle on the Coast.

This will be a mixed match. The referee will toss a coin and whoever wins has the choice of naming the first fall. That is, if Dawkins wins

the toss he can name catch-as-catch-can wrestling, and if so the second fall will come as a result of jiu jitsu. The man who wins the fall in the quickest time has the choice of naming the style for the last fall. For the benefit of fans who do not understand jiu jitsu, the rules are as follows: There are no pin falls, a fall is only secured when a man gives up. Choking is perfectly legal and is the usual method of securing submission. In this type of wrestling, hip-length white jackets are worn while grappling, and the object is to use them to secure holds.

Kudo tips the scales at 175 pounds and has beaten some of the best heavies on the Coast since his arrival. Dawkins is considered in the roughneck class and figures he can defeat the Japanese with jackets or without.

In addition to the bout mentioned, there will be another ten six-minute-round affair and a special event of five ten-minute rounds. The local matchmaker is endeavoring to get Louis Newman, local heavyweight, for the special. At least five new wrestlers will appear this week.

For Good Conduct the Warden Is Cutting Down My Wife's Visits to One a Month.

## Jane Dixon Says:

A WOMAN OF FORTY WHO HERETOFORE NEVER HAD A LOVE AFFAIR IS HESITANT ABOUT ACCEPTING THE PROPOSAL OF A MIDDLE-AGED MAN BECAUSE SHE IS AFRAID HER MARRIED WOMEN FRIENDS WILL LAUGH

Dear Jane Dixon:

I wonder what you would do if you were in my place.

I'm just turning forty. I've never had a real romance, a real love affair in my life and I had decided love and marriage would pass me by. Not that I minded being left on the shelf so much, though one does get more and more lonely as girlhood friends marry, begin raising their families and minding their homes, and there is no longer a bond of common interest between them and an "old maid."

I wonder if married women ever stop to think how tiresome it is to hear them tell about little Cuthbert's cute tricks and what little Mable's teacher said about her being the brightest girl in the class? I wonder if they know how smug they sound when they talk about "my husband this" and "my husband that" in that possessive tone so many women take on when they've got their man.

They all were so sorry for poor old me, left high and dry with nary husband nor chick and they were so obvious about trying to be nice—when they thought of it—to the lame duck in the crowd.

I had more money than any of them—my parents left me quite a nice estate—but in their eyes I was an unfortunate, a left-over, an object for pity and occasional concern.

## ROMANCE COMES AT LAST

Then, a year ago, a new man came to town. He is a gentleman, well-educated, of good family, but life has been far from generous with him in a material way. He is not lazy. He is not shiftless. He has worked whenever he could in many different lines all his life, but never seems to get any place. He does not feel cheated or defeated. He is cheerful and hopeful and believes he will yet make good though he is approaching fifty.

Miss Dixon, this man has asked me to marry him. Maybe it's foolish for people our age to talk about love, but we do care deeply for each other and our companionship is something that is very precious to both of us. This past year has been the happiest one I've ever known because I've been able to share my pleasures with a man who was nice to me for myself, not because I was an "old maid" friend of his wife.

If I accept his proposal, people will laugh and say there's no fool like an old fool. The man has a minor position in a bank and I have reason to know he can keep it until age or sickness retires him. The pay is small, but ample, for his own needs and for extras in a home. I live alone in my family home which is very nice, has all the comforts and an income to take care of it and me. The man wants none of my money. He has suggested a pre-nuptial contract which will prevent him receiving any benefit from my estate.

My heart says "Yes" but my head keeps asking if it is the wise thing to say. I will be grateful for your opinion.—Spinster.

## ADVISED TO FOLLOW HER HEART

Comment: Let your heart do the talking for you, and let it sing so joyously that it drowns all thought of what "people say." Let them laugh on the wrong side of your face if it amuses them to do so. You laugh, too, on the right side of the face.

Take the affection and the companionship that drifted away from you as your friends embarked upon their own search for happiness. They will not stand by to keep out the creeping chill of loneliness when your Autumn is ended and the long Winter days come along.

Rejoice that you have good fortune to share with a loved one when that one proves worthy of your trust.

Brighten up your home for your new life. Brighten up yourself. Buy a new and becoming wardrobe. Be a bride who is proud of her love and of her husband and grateful to have, at last, found them.

(Copyright, 1937, by Bell Syndicate, Inc.)

## NOT SO SOON

"If you please, madam," said the new maid, "there's an unusual lady downstairs. She won't give her name, an' she's taken off her coat an' hat. As soon as she came in she opened the two cupboards and rummaged through them. Then she looked at the windows, shook her head, and rubbed her fingers

over the mantelpiece and piano. When I left the room she was—"Dear me!" interrupted her mistress, "I didn't expect my husband's mother this week!"

## POTATO CHEQUE IS EXHIBITED

Eleven Sacks of Potatoes Shipped in April Brought \$2.83 in September

An agency cheque for \$2.83, said to have been the net price received for eleven sacks of local potatoes sold through the British Columbia Coast Vegetable Marketing Board last Spring, made an effective window display for the Superior Produce Company, Fort Street, this week. In protest against the operation of market control as it affects the producer.

The actual cheque was posted in the window, with a brief statement that it represented the price received for eleven sacks of potatoes delivered five months before to the control body. In April, it is claimed, the potatoes would have been worth \$27.50 on the open market, retailed.

## THREE BADLY HURT IN STREET CAR CRASH

SAN FRANCISCO, Oct. 12 (AP).—Three persons were injured seriously and about twenty others suffered less severe wounds in the spectacular crash of two crowded street cars at Eighteenth and Mission Streets here today.

One car struck the fire and the fire department was called to free one victim imprisoned in the wreckage.

## KINDNESS

The following story is one that the late President Wilson used to tell. The professors at a certain college met to consider an act of misconduct on the part of one of the students. One professor insisted upon punishment, saying: "God has given us eyes."

"Yes," said one of his colleagues, with a kinder nature, "and eyelids."

Love perhaps will be a very important factor in your affairs this day. Maternal, paternal or a

natural affection is apt to influence some action or decision very favorably and is likely to be responsible for much of this day's happiness. Your personal affairs require promptness and dispatch, for procrastination is the danger that seems likely to interfere with some of your lines of procedure, relating to a social or business undertaking. Written directions can save both time and trouble, because forgetfulness will be a rather prevailing trait. ## DAVID SPENCER LIMITED

The child born on October 13 frequently is blessed with a remarkable memory. By nature it should be studious. The chances are in its late teens this youngster will embark upon a career that will assure it an outstanding position in society.

If a man and October 13 is your natal day, you may not do things in a spectacular way, but the chances are you do them very thoroughly. The indications are that you can become a great success through hard work. Law, politics, theology, acting, real estate, insurance, journalism and salesmanship appear to

be among the activities that have many opportunities to offer a man of your versatility.

Two Englishmen bound for New York had sat side by side on deck chairs without exchanging a word. On the third day one of them fell asleep, and his book fell on the deck with a thud. It broke the ice. The other man picked up the book, and the following dialogue took place:

"Thanks very much. Going across?"  
"Yes."  
"So am I."
